

Eagle Vale High School upgrade (selective sports stream) Project update | October 2023

Investing in our schools

As part of the NSW Government's plan to rebuild essential services, the 2023-24 Budget is delivering a record \$8.8 billion for new and upgraded schools. This targeted investment in growing communities will ensure working families get access to a world class public education.

The 2023-24 Budget committed funding to progress with an upgrade to the Eagle Vale High School.

These funds will help to upgrade the Eagle Vale High School to deliver a selective sports stream, giving students the opportunity to achieve their academic and sporting potential.

Eagle Vale High School upgrade (selective sports stream)

Early planning has begun. At this stage of the project, site investigations and needs analysis are underway. This phase involves consideration and studies of demographic trends, education requirements, intake areas, technical studies, planning requirements, transport links and possible shared area opportunities.

In the next phase of the project, architects and engineers will be appointed and analysis of the site takes place, along with the development of the concept design. Doing so means that we consider the needs of the local area now and into the future, and ensure the right school facilities are designed for the community.

Further updates will be released as the project progresses.

How can I get involved?

We are committed to working together with our school communities and stakeholders to deliver the best learning facilities for students. As the project progresses from the planning phase, we will share details with the community for feedback.

A dedicated project page has been published on the School Infrastructure NSW website, which is updated as the project progresses. You can also contact us via our community information line and email using the details below.
