Engadine High School

Project update

April 2021

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

An upgrade is underway for a new multi-purpose hall at Engadine High School.

The hall will include a full basketball court, stage, amenities, and sports and performance storage.

Progress summary

- Tenders have been received for the design and construct contract, and are being assessed.
- The schematic designs have been finalised.
- The Development Application for works to build the school hall has been lodged.

Next steps

The Development Application has been lodged with Sutherland Shire Council. The application can be viewed and community can provide a submission during the public exhibition period. See Sutherland Shire Council website for more details.

www.sutherlandshire.nsw.gov.au

Preparation of the site may start soon after the award of construction contract. The main construction work will start after planning approval is granted.

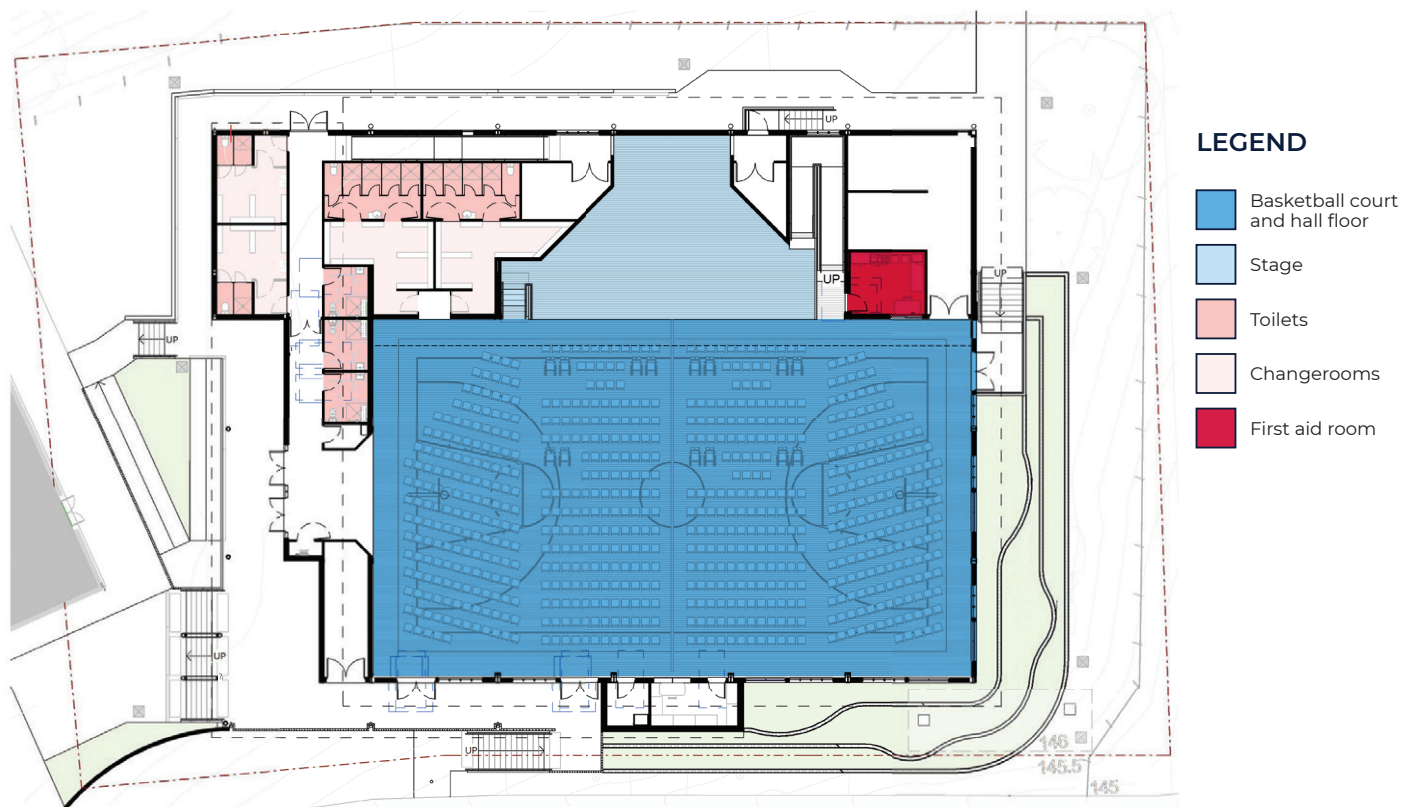

The Department of Education is committed to ensuring that work is completed safely and efficiently and with minimal impact to the local community.

Thank you for your cooperation during this important work.

Proposed new school hall

Frequently asked questions

When will the school hall be complete?

The school hall is planned to be ready for Day One, Term One, 2022, subject to planning approval.

Where will the new school be located?

The new hall is located in the north west corner of the school, near the corner of Birok Avenue and Porter Road.

What is happening to the existing school hall?

Once the new hall at Engadine High School has been completed, the school will use the existing hall for other purposes.

What steps will be taken to control noise and dust impacts during construction?

Noise will be kept to a minimum as best as possible during the works. Noise levels on site will be managed in accordance with the noise control guidelines that

are outlined in the EPA Environmental Noise Control Manual for construction and demolition works.

Dust from construction works will be hosed down as required.

Can I provide feedback on the Development Application?

The Development Application for the new hall at Engadine High School will be available to view through Sutherland Shire Council. You can comment on the application by providing a submission to council while it is on public exhibition.

At the NSW Department of Education, we recognise the traditional custodians of the lands and waterways where we work and live. We celebrate the First Peoples' unique cultural and spiritual relationship to Country and acknowledge the significance of Aboriginal cultures in Australia.
