

# Engadine High School

## Works notification

**29 November 2021**

Dear residents,

A project is underway to deliver an exciting new multi-purpose hall at Engadine High School.

Lloyd Group, who were awarded the construction contract for the project earlier this year, are scheduled to start main works on 8 December 2021.

As a part of these works, Lloyd Group will excavate part of the rock shelf within the site, using a 15 tonne excavator with jack-hammer attachment.

The rock shelf depth varies across the site and rock breaking works will be required only when rock is encountered during excavation.

These works are required to install an on-site detention tank, substation, electrical poles and infrastructure, as well as the supporting substructure of the building (screw piles and footings).

### Summer holidays

During December and January, in addition to the excavation work mentioned above, Lloyd Group will:

- Finish installing the new dance and band rooms
- Start installing foundations for the new hall
- Start on-site detention tank works.

### Working hours

Working hours are Monday to Friday, 7 am to 6 pm and Saturday, 8am to 3pm. No work will occur on Sundays or public holidays, unless otherwise advised.

All work will be within NSW Government's Public Health Orders, and relevant COVID restrictions.

Thank you for your patience while we deliver this important school infrastructure.
