

This image is an example of a future-focused learning space we are building for students across NSW.

Epping Public School

Site establishment notification

September 2018

Investing in our schools

The NSW Government is spending \$6 billion over four years to deliver more than 170 new and upgraded schools. This includes an additional \$160 million in 2018/19 as part of the record \$747 million maintenance investment announced last year. This is the biggest investment in public school infrastructure in the history of NSW.

Epping Public School project

A project is underway to upgrade Epping Public School. The project will deliver:

- 22 new permanent teaching spaces
- a new library
- an upgrade to the core facilities, special programs rooms and new administration space converted from two existing teaching spaces

Project summary

The development application has been approved and the construction contract has been awarded.

Site establishment starts 2 October 2018

Grindley Construction will set up the site in the south-west corner of the school and demolish three existing buildings to provide a space for the new building. Ahead of construction starting temporary classrooms have been installed, providing learning spaces for students throughout construction. Construction work will continue during the school term and will be planned with the school to ensure disruption is minimal.

If any asbestos removal is required it will take place during the school holidays by a licensed asbestos removal contractor. The works will be conducted in accordance with the Department of Education's Asbestos Management Plan and Safe Work NSW requirements.

Site establishment and construction will take place from 7am to 5pm Monday to Friday and 8am-5pm Saturday. No work will take place on Sundays or public holidays.

Keeping you updated

Regular updates will be provided to the school and local community. Details of upcoming information booths will be advertised on our website.
