Epping Public School

Summer holidays construction works

December 2018

Investing in our schools

The NSW Government is investing \$6 billion over the next four years to deliver more than 170 new and upgraded schools to support communities across NSW. In addition, a record \$847 million is being spent on school maintenance over four years. This is the largest investment in public education infrastructure in the history of NSW.

Epping Public School

A project is underway to upgrade Epping Public School. The project will deliver:

- 2 new permanent teaching spaces
- a new library
- an upgrade of existing core facilities, including special programs rooms and administration.

Progress summary

The school upgrade is underway with demolition and site clearance works completed.

The foundations and piles for the new building are in place and the level one concrete pour completed.

Summer school holiday works

Construction of the new building will continue during the school holidays. This will include installation of formwork, columns and scaffolding for the new building and a concrete pour for the upper level slab, weather and site conditions permitting.

We are here to make sure that work is completed safely and efficiently. During this time we will be working collaboratively with the school community and neighbours to ensure that disruptions to the community are minimised.

We thank you for your patience during these works and are thrilled to deliver this project for the school community.

Please see overleaf for more information.

Frequently asked questions

What works will be completed over the holidays?

During December 2018 and January 2019, works will include:

- installation of formwork, columns and scaffolding for the new building
- concrete pour for the upper level

No works will take place on public holidays and Sundays.

What steps will be taken to control noise and dust impacts?

Hoarding and shade cloth has been erected to reduce noise and dust impacts on the school and our neighbours. Dust from demolition and construction works will be hosed down with water as required.

How will traffic be managed?

Traffic management will continue to manage vehicles entering and exiting the site.

Will there be any change to the current school access on Day 1 Term 1 2019?

No. Access arrangements for Day 1 Term 1 2019 remain the same.

How will you keep us informed during construction?

School infrastructure NSW will continue to share construction updates and project information as the project progresses. We will provide information through project updates, our website and school newsletters.

Who can I contact if I have a concern about construction works over the holidays?

If you have any queries or concerns about this project you can contact School Infrastructure NSW during business hours on 1300 482 651.

SINSW will be closed from Monday 24 December to Friday 4 January inclusive.

In an emergency, call triple zero (000).
