Response

Dear Thomas and Ben,

I am pleased to confirm that the Round 1 As Built assessment of **Fairvale High School - 1 Thorney Rd, Fairfield West NSW** has been completed under the *Green Star - Design & As Built v1.2* rating tool. The project has been awarded **48** points, with a further **9** points to be confirmed in the Round 2 Assessment.

Please refer to the attached Excel scorecard for a summary of points awarded and any points to be confirmed. Any points to be confirmed include comments from the Assessors detailing the requirements for the Round 2 Assessment. In addition, the Assessment Panel has noted the following for your attention:

- Documentation throughout the submission was clear for most credits. Marking-up and highlighting of evidence was well done.
- For future submissions, the Submission Templates should be used more effectively to demonstrate how the documentation provided meets the intent of the credit.
- A number of Technical Questions were provided without project/implementation evidence. Please ensure documentation requirements are met for all Technical Questions provided with the submission.

Next Steps:

Certification

The project has achieved enough points to achieve a **4 star Green Star - Design & As Built v1.2** rating. Please contact me if you would like to finalise certification, and will not proceed with another round of assessment. We will then issue your final results and issue your certified rating.
