Fairvale High School

Project update

August 2020

Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Fairvale High School

A project is underway to upgrade Fairvale High School. The project will increase the school's capacity and includes:

- 30 permanent teaching spaces including specialised classrooms for science, technology and food technology
- New multipurpose hall including gym facilities, stage and canteen
- Improved outdoor play space, including a new covered outdoor learning area (COLA)
- New and expanded staff administration facilities
- Demolition of the Bini Dome
- Associated landscaping.

Progress summary

The roof structure and concrete slab for the new outdoor learning space have been completed. The onsite detention tank has been installed, to capture stormwater during heavy rain. Construction of the new Block K building has commenced, with piling and ground slab work in progress.

Next steps

- Completing landscaping work around the new COLA and handover of the facility to the School.
- Completing piling and ground floor slab work for the new Block K.
- Demolition of the existing COLA, making way for the new multi-purpose hall (Block J).

Keeping you updated

We are committed to working together with our school community and other stakeholders to deliver the best possible learning facilities for students.

We will keep the local school community and residents informed as the project progresses.
