

Forbes Public School

Flood Recovery Update | January 2023

Temporary school works progressing well

In response to significant flooding impacting Forbes Public School, School Infrastructure NSW (SINSW) is working to establish temporary facilities for students and staff in time for the start of Term 1 2023.

We're pleased to inform that work is tracking well for the temporary school to be operational for the first day of Term 1 2023.

Most of the temporary buildings have been delivered and installed by our contractors. Our engineers conducted a walkthrough of all existing buildings on site to identify any structural defects on Thursday 12 January 2023.

Next steps

Upcoming work on the temporary school schedule will continue to take place over the next week.

We will continue to keep the community updated ahead of the opening of the temporary school and as work begins on the longer-term buildings situated on the original site.

Please contact SINSW with any questions during business hours on 1300 482 651.

Once again, thank you for your patience and understanding as we look forward to establishing the temporary school site for the Forbes Public School community.
