

Fort Street Public School

Works notification | Tuesday 4 July 2023

Upcoming night works Sunday 9 July to Wednesday 12 July 2023

We are writing to inform you of upcoming night works required as part of the Fort Street Public School upgrade.

Subject to weather conditions, works will take place between 10pm and 5am, over three nights from Sunday 9 July to Wednesday 12 July.

These works will include the removal of scaffolding to the north and south of the school site as well as structural steel works to the adjacent Transport for NSW (TFNSW) Bradfield Shed site.

A mobile crane will be required for the structural steel works.

During these works, traffic management will be in place on Upper Fort St and temporary lighting will be required for some of these works. Measures will be taken to minimise the impact on nearby residents, including noise mitigation measures.

This work is being organised in coordination with TFNSW, which, due to the location, will include shutting the Cahill Expressway to ensure the safety of workers and the public.

Thank you for your patience as we deliver this important project for the Fort Street Public School community.
