

Fort Street Public School

Works notification

15 October 2021

Dear resident,

We are writing to inform you of upcoming night works required as part of the Fort Street Public School upgrade. These works will take place between **10pm Wednesday 20 October and 4:30am Thursday 21 October 2021**, subject to weather conditions.

The works are part of the approved State Significant Development (SSD) application and include:

- The removal of trees and vegetation along the east, west and north west boundaries of the site, above the Cahill Expressway
- Installation of scaffold to the site accommodation area adjacent to the road.

This work is being organised in coordination with Transport for NSW (TFNSW), which will be shutting the Cahill Expressway during this time to perform separate works.

The works at the site of the Fort Street Public School upgrade are required to be carried out during the TFNSW road closure to ensure the safety of workers and the public.

In accordance with the conditions of consent under SSD application, an exemption is being arranged to facilitate these works outside the standard hours of construction.

TFNSW are responsible for the management of the road closure and associated traffic management.

Thank you for your patience as we deliver this important project for the Fort Street Public School community.
