Green Square Public School and Community Spaces

Project update | February 2024

Investing in our schools

As part of the NSW Government's plan to rebuild essential services, the 2023-24 Budget is delivering a record \$8.8 billion for new and upgraded schools. This targeted investment in growing communities will ensure working families get access to a world class public education.

Project overview

The Green Square Public School and Community Spaces is being delivered by the NSW Government in partnership with the City of Sydney. It will provide fit-for-purpose learning spaces and core facilities to meet local enrolment demand as well as a range of spaces for community use.

The school is being built on the former Royal South Sydney Hospital site on Joynton Avenue. This project is jointly funded by the NSW Government and the City of Sydney and will include flexible classrooms, a library and canteen, staff rooms, administrative offices and amenities, a covered outdoor learning area (COLA), multipurpose spaces (community and shared spaces), Out of School Hours care (OOSH), a games court and adjacent courtyard (shared spaces).

Progress summary

The ground slabs for the main structure have been completed, along with all ground and pavement slabs within the building's footprint. The external scaffolding continues to be erected to support vertical walls extending up to Level 1. Meanwhile, work on the wall formwork and reinforcement for the remaining Level 1 suspended slabs is actively progressing. Inground services have been completed. All hoarding artwork has been erected.

Next steps

Proceed with constructing all vertical walls below Level 1, prepare the formwork for the Level 2 slab, and finalise the scaffold up to Level 1. Traffic control measures will remain active to reroute vehicles, cyclists, and pedestrians, maintaining safety throughout the project duration. Please see **Works Notification September 2023**.

Timeline update and enrolment process

The enrolment protocol and specific intake zone for the new school will be confirmed as we near its opening, factoring in current demographic trends and projections.

We will publish this information when construction nears completion. In the meantime, School Finder can help parents locate NSW public schools in their intake area. This can be accessed at schoolfinder.education.nsw.gov.au

Staying informed

School Infrastructure NSW will continue to share updates as the project progresses.
