

Project overview

The new primary school and community spaces in Green Square will be delivered by the Department of Education in collaboration with the City of Sydney. It will provide fit-for-purpose flexible learning spaces and core facilities to meet enrolment demands in the area.

The school will be located in Green Square on the former Royal South Sydney Hospital site on Joynton Avenue. The project will include dedicated multipurpose spaces for community use and shared spaces designed for both school and community use, including a communal hall, a multipurpose space, a games court and adjacent courtyard. Out of school hours care (OSHC) will also be provided on site.

Timeline

What's next?

- Submit a State Significant Development (SSD) application to the City of Sydney for assessment, as delegated by Department of Planning, Industry and Environment (DPIE).
- The application will be placed on public exhibition and submissions must be made directly to the City of Sydney.
- Determination of the SSD application.
- Start site establishment and early works on the Joynton Ave site, anticipated in late 2021. This work has been approved by a separate development application.

We look forward to sharing more information with you as the project progresses. In the meantime you can stay informed by regularly visiting the project web page and you can contact us via email or phone if you have any questions or feedback.

Flexible learning spaces

Contemporary learning and teaching prepares students for a diverse and interconnected world. We are evolving the ways we teach our students new skills that are valued by a changing workforce. We understand there are different ways students learn as well as new ways to interact with information through technology.

Flexible learning environments are spaces designed and equipped to support contemporary learning and teaching.

What makes a flexible learning space?

Learning space

- Different zones (areas of a building or floors) are designed to support a range of activities sometimes grouped by subject area
- Varied furniture allows for student choice, comfort and flexibility
- Spaces are flexibly connected allowing students to work in varied group sizes
- Connection between indoor and outdoor learning spaces

Organisation

- Movement is encouraged for students and teachers to collaborate and interact
- More than one teacher may be available to students within the learning environment
- Students learn in classes, small groups or individually

Teaching and learning

- Learning is personalised
- Learning is connected across different subject areas
- There is a focus on creativity and innovation with students prototyping, testing and using technology in creative ways

Technology

- Technology is integrated into spaces to extend learning opportunities
- WiFi is available everywhere including outdoors
- Specialist equipment is available for students to innovate, communicate and create

Community and shared spaces

The ground floor has been designed to foster connection with the broader community, surrounding parks, and community facilities. It includes dedicated multipurpose community spaces and areas that can be shared with the broader community at night and on weekends.

Both the community and shared spaces will be hireable through the City of Sydney.

What spaces can the community use?

Community spaces

- Two dedicated multipurpose community spaces with separate access via Zetland Avenue
- The spaces have timber floors and are designed to be flexible
- Multipurpose 1A is 193m² and multipurpose 1B is 180m²
- Each space can accommodate up to 80 people seated at tables
- Chairs and tables will be provided for hirers
- Access to free City of Sydney wifi
- A dedicated kitchenette and toilets will service each space

Shared spaces

- A 308m² communal hall with sprung timber floors, removable stage and seating available for 200 people
- A 309m² multipurpose space with sprung timber floors, chairs and tables
- Multipurpose 2 can accommodate up to 150 people seated at tables
- Dedicated kitchenettes, toilets, and free City of Sydney wifi will service the communal hall and multipurpose 2
- A ground floor courtyard providing through site links will be open for the community in the evenings and on weekends
- Public toilets are available at Matron Ruby Grant Park and the Drying Green Park for hirers of the games court
- A high school standard games court with hoops and line markings for basketball and netball
