Glenmore Park High School New Performing Arts and Learning Centre

Project update

June 2021

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Planning for a new Performing Arts and Learning Centre at Glenmore Park High School

Planning continues for a new Performing Arts and Learning Centre at Glenmore Park High School. The new facility will enable the school to hold performances, assemblies and other events. The project includes:

- A performance hall with seating capacity of over 400.
- A raised stage area with back-of-house holding rooms, change rooms and stores.
- Two flexible learning spaces.

Progress summary

Planning of the new hall project continues. Early works have enabled us to achieve an understanding of the requirements of the school.

The schematic design is now complete and School Infrastructure NSW (SINSW) has completed the tender process to construct the new Performing Arts and Learning Centre.

The construction contract has been awarded to Lloyd Group and we expect construction to start soon with the aim of completing the hall in late 2021, subject to planning approvals.

Next steps

- Continue Project Reference Group (PRG) meetings.
- Completion of detailed design.
- Contractor will commence ground works.

The Department of Education is committed to ensuring that work is completed safely and efficiently and with minimal impact to the local community.

Thank you for your cooperation during this important work.
