

Project overview

Planning is underway to build a new primary school in Googong, which will deliver facilities to accommodate up to 700 students and deliver 33 permanent air-conditioned learning spaces including special programs rooms; core facilities including the school canteen, hall, administration and staff facilities; air-conditioned library; and a covered outdoor learning area (COLA).

The project is being fast-tracked as part of the NSW Government’s \$3 billion Jobs and Infrastructure Acceleration Fund.

Features:

 Library

 Outdoor learning area

 Staff and administration areas

 Special program unit

 Flexible learning spaces

 Canteen

Innovative learning spaces

Contemporary learning and teaching prepares students for a diverse and interconnected world. We are evolving the ways we teach our students new skills valued by a changing workforce, understand different ways students learn and support new ways of interacting with information through technology.

Innovative learning environments are flexible spaces designed and equipped to support contemporary learning and teaching.

What makes an innovative learning space?

Learning space

- Different zones (areas of a building or floors) are designed to support a range of activities sometimes grouped by subject area
- Varied furniture allows for student choice, comfort and flexibility
- Spaces are flexibly connected allowing students to work in varied group sizes
- Connection between indoor and outdoor learning spaces

Organisation

- Movement is encouraged for students and teachers to collaborate and interact
- More than one teacher may be available to students within the learning environment
- Students learn in classes, small groups or individually

Teaching and learning

- Learning is personalised
- Learning is connected across different subject areas
- There is a focus on creativity and innovation with students prototyping, testing and using technology in creative ways

Technology

- Technology is integrated into spaces to extend learning opportunities
- WiFi is available everywhere including outdoors
- Specialist equipment is available for students to innovate, communicate and create

Timeline

What's next?

We will continue to work with key stakeholders so that we can deliver high quality education infrastructure for the local community. The SSDA is now on exhibition, and the community is encouraged to provide feedback via the Department of Planning, Industry and Environment planning portal. Download the information pack for details.

We look forward to sharing more information with you as the project progresses. In the meantime you can stay informed by regularly visiting the project web page and you can contact us via email or phone if you have any questions or feedback about the new school.
