

Greenwich Public School

Project update

December 2018

Investing in our schools

The NSW Government's 2018/19 Budget includes \$6 billion over four years to deliver more than 170 new and upgraded schools. A further \$160 million has also been invested as part of the record \$747 million maintenance investment announced last year. This is the largest investment in public education infrastructure in the history of NSW.

Greenwich Public School

A project is being planned for both the Kingslangle Road and Greenwich Road campuses of Greenwich Public School. The project will deliver flexible learning spaces for 670 students by 2020.

The Kingslangle Road campus upgrade will include 18 new permanent teaching spaces, a new library, two existing permanent teaching spaces converted to special programs rooms, and an upgrade to core facilities including the canteen, staff and administration amenities and the hall.

The Greenwich Road campus upgrade will include 8 new permanent teaching spaces, two existing teaching spaces converted to special programs rooms and an upgrade to the existing administration building.

Progress summary

Lane Cove Council have concluded assessment of the Development Application and approval for both sites was received on 14 November 2018. The contract for design and construction has been awarded to Taylor Construction Group (TCG).

Next steps

The design and construction contractor will continue with detailed design. Site establishment will commence on both sites to separate the construction area from the rest of the school.

Keeping you updated

You are invited meet the project team at one of these community information booths:

Date: Thursday, 13 December 2018

Where: 2:30pm to 4pm at Greenwich Public School (Kingslangle Road Site)

4:30pm to 6pm at Greenwich shops (near Greenwich Village Pharmacy), Greenwich Road
