Greystanes Public School

Project update

November 2019

Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over four years. This is the largest investment in public education infrastructure in the history of NSW.

Greystanes Public School

A project is underway to upgrade Greystanes Public School. The project will deliver:

- 24 new permanent learning spaces
- refurbishment of administration block into a multi-purpose space
- new administration building.

Progress summary

The contract for main works went out to tender in late October 2019.

Next steps

The tender will close in late November and we anticipate that the contract will be awarded in the summer holidays followed by site establishment. Work is expected to commence before the start of Term 1 2020.

Keeping you informed

School Infrastructure NSW will continue to keep the school community updated as the project progresses.
