

Hastings Secondary College upgrade

Works notification | 17 July 2023

We are upgrading Hastings Secondary College to support the student community. Work is underway at both Port Macquarie Campus and Westport Campus.

Change of schedule to concrete pours taking place at Port Macquarie Campus

We recently let you know that over a period of three weeks concrete pours would be taking place at Hastings Secondary College Port Macquarie campus to continue the construction of the new Hastings PCYC multi-sports facility.

The builder started this process with the first pour taking place on Thursday 29 June, but unfortunately the dates of the second and third pours were needed to be rescheduled. These concrete pours will create the ground floor slab at the Hastings PCYC multi-sports facility.

The new schedule for concrete pours for week two and three are currently scheduled to take place on the following dates, weather permitting:

- Week 2: Wednesday 19 July
- Week 3: Tuesday 25 July

These works are scheduled to start at 6am and will finish no later than 6pm. It is anticipated that these works will take 12 hours to complete due to the size of each pour.

Out of hours works

To meet these time frames and minimise ongoing impact to the local community, workers will be onsite from 6am to setup machinery including the concrete pumping equipment. This out of hours work has been approved by the Department of Planning and Environment. Equipment movements will also be undertaken from this time, and this may include forklift operation and concrete boom lift placement.

Managing construction impacts

School Infrastructure NSW plan for the likely impacts of the upgrade works on the local community, such as noise, vibration, dust, and traffic changes. We notify our neighbours before disruptive work takes place wherever possible. To learn more about how we manage construction impacts visit:

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.

How can I stay up to date?
