

Hastings Secondary College

Works notification | 27 May 2024

We are upgrading Hastings Secondary College to support the student community. Work has recently been completed at Westport Campus, and work is continuing at Port Macquarie Campus.

Complying development certificate works to start from early June 2024

Although construction works have already started, this notification is to inform you that works specifically approved under the fourth complying development certificate (CDC) planning pathway for Hastings Secondary College will begin in early June 2024.

A CDC planning pathway is an approval process for low impact developments that meet certain criteria.

These CDC works at Hastings Secondary College will take place on Building T, and will include:

- reconstruction of building T
- construction of four new classrooms
- new staff faculty facilities
- new external driveway

All works at the Port Macquarie campus will take place between 7 am and 5 pm Monday to Friday.

Thank you for your patience while we deliver this important school infrastructure.
