

Project overview

We are upgrading Hastings Secondary College to support the student community. Hastings Secondary College comprises of the Port Macquarie Campus (PMC) and Westport Campus (WPC). The upgrade will involve work at both campuses and is being staged to ensure the school remains operational during construction and to minimise disruption to learning.

Port Macquarie Campus features:

**14 new or upgraded innovative learning spaces**

**3 supported learning spaces**

**New Technological and Applied Studies facilities**

**New Creative and Performing Arts (CAPA) building**

**Increase student accessibility with 3 lifts installed**

**Redeveloped school entry**

Westport Campus features:

**Relocate and upgrade administration office**

**3 innovative flexible learning spaces**

**Redeveloped school entry**

A separate proposal also includes a shared use multi-sports facility at the Port Macquarie campus, in partnership with the Police Citizens Youth Clubs (PCYC) NSW.

Port Macquarie Campus Stage 1

The first stage of the upgrade at the Port Macquarie Campus is construction of a new Technical and Applied Sciences (TAS) building, upgrade to facilities in building T and increased open landscaped areas with accessibility to areas within the campus.

Westport Campus

Stage 1 – Administration

Stage 2 – Building A

Designs may change as part of the detailed design phase.

Port Macquarie Campus Stage 3

There is a separate proposal for a shared use multi-sport facility in partnership with Police Citizens Youth Clubs NSW (PCYC).

The master plan of the Port Macquarie Campus site was developed to ensure these two projects could proceed separately and independently of each other.

The multi-sport facility is being designed and has been submitted as part of the State Significant Development planning application for Port Macquarie Campus as Stage 3. However, construction of this facility is subject to separate funding approval.

Features of the design:

- Below ground car parking
- 2 multi-purpose sports courts
- Gymnastics facilities
- PCYC Police office, youth hub, admin, staff and kitchen facilities
- Mezzanine level with multipurpose rooms and gym
- Clontarf Academy, including meeting and kitchen facilities
- Separate access into the school and for public into the PCYC

Progress summary and next steps

The Hastings Secondary College schematic design is complete for Stages 1 & 2 at both campuses. The internal layout of spaces and how they will function were finalised in consultation with school representatives to ensure classroom designs and layouts support teaching and learning requirements.

The Development Application (DA) for the Westport Campus upgrade was submitted to Port Macquarie-Hastings Council in April. Submissions on this DA can be made directly to Council.

The State Significant Development (SSD) Application for Port Macquarie Campus has been submitted to the Department of Planning, Industry and Environment (DPIE). This includes the Environmental Impact Statement responding to requirements for the project requested by DPIE. Community has the opportunity to view the proposal and provide formal comments directly to DPIE via www.planningportal.nsw.gov.au/major-projects and search for “Hastings Secondary College”.

A Complying Development Certificate (CDC) has been issued for Port Macquarie Campus Stage 1 and construction will commence in mid 2021 and will continue while planning approval is being considered for other stages.
