

# Hurstville Public School

## Term 2 Welcome

## Welcome to your school

The Hurstville Public School upgrade is now complete. We have delivered:

4 new permanent flexible learning spaces

New covered play area and toilets

Upgraded hall

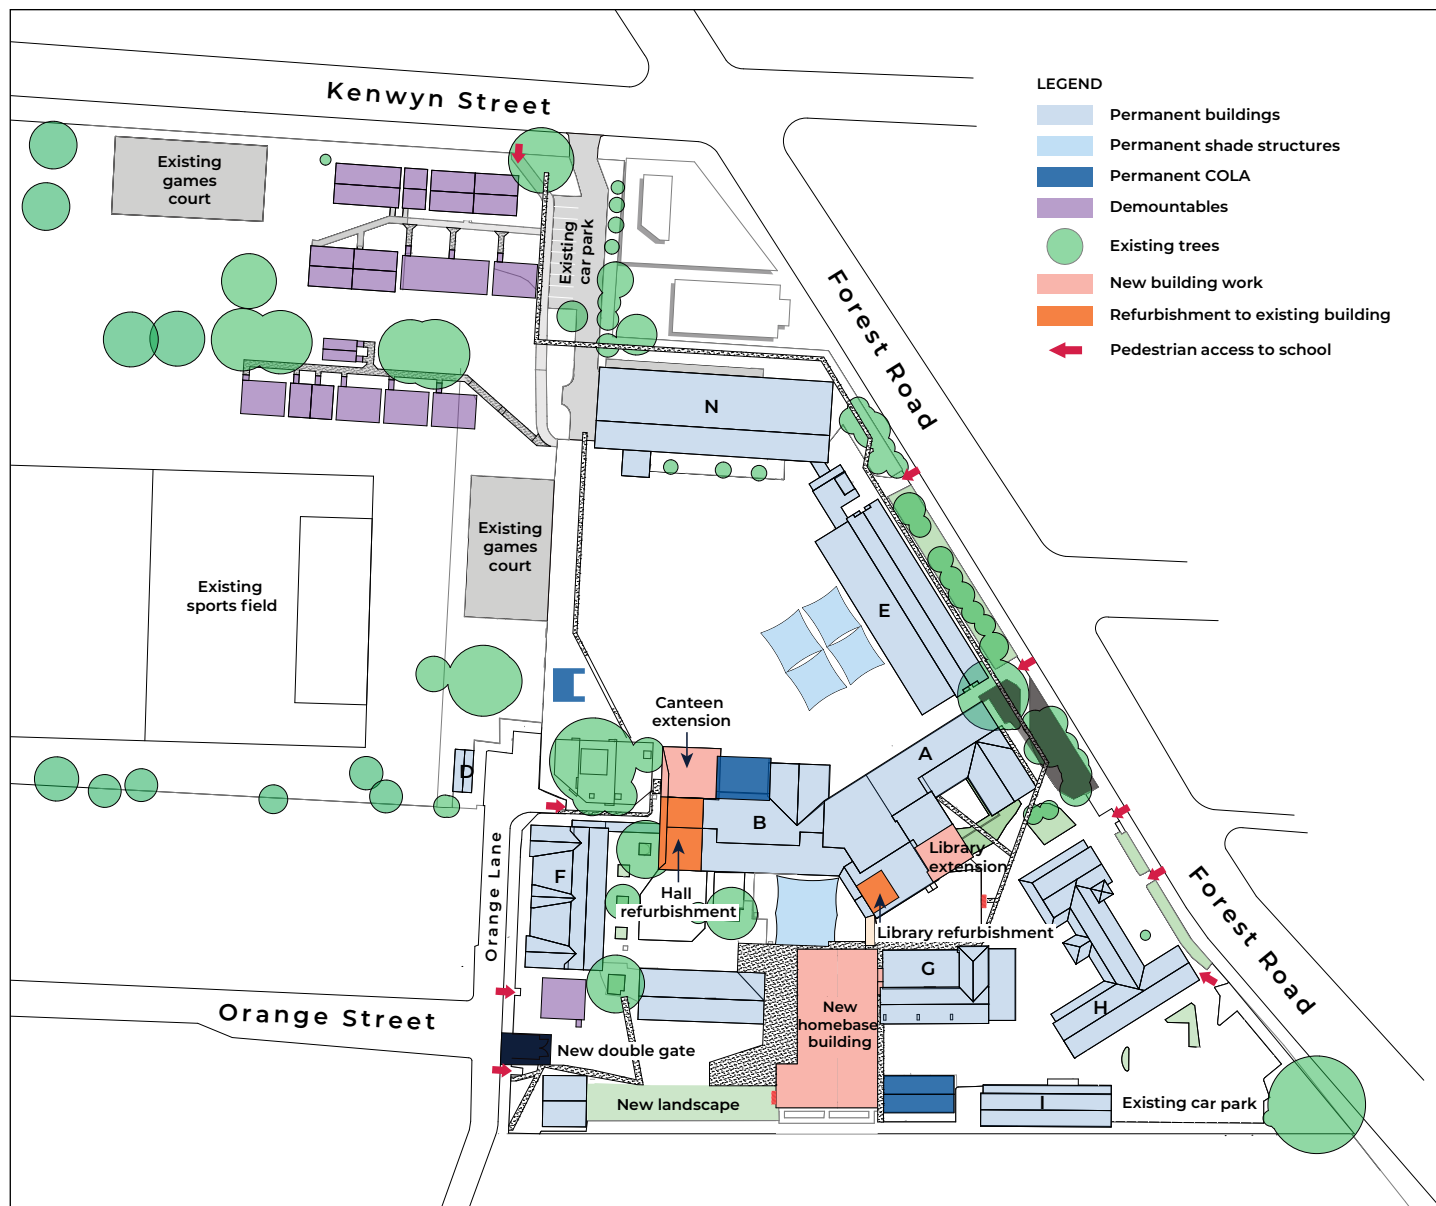

Upgraded library

New canteen

We sincerely thank you for your patience as we have delivered this significant upgrade to facilities at your school. Your support and cooperation throughout the project have enabled us to deliver these new facilities to best meet the educational needs of students and staff at Hurstville Public School.

Hurstville Public School upgrade

## Construction complete

The Hurstville Public School upgrade is complete. We have delivered four new permanent flexible learning spaces (homebases), a covered play area and toilets, an upgraded hall and library and a new canteen.

The new facilities are now ready for students and staff to use to enrich teaching and learning opportunities for all at Hurstville Public School.

## Message from the Principal

The keys to the new buildings have been officially handed over. After two years of planning and construction, our vision has become a reality. We have been provided with an amazing facility for future-focused educational excellence!

We will be moving into the new spaces over the coming week. Our teachers are looking forward to exploring the state of the art project facilities now that all students have returned to full time face-to-face teaching. Since the announcement of the school upgrade in 2017, we have focused on developing best pedagogical practice and embedding this in high quality learning experiences for students. It is a very exciting time for us as a school community.

Sincere thanks to all that have been involved.

**Mark Steed, Principal**

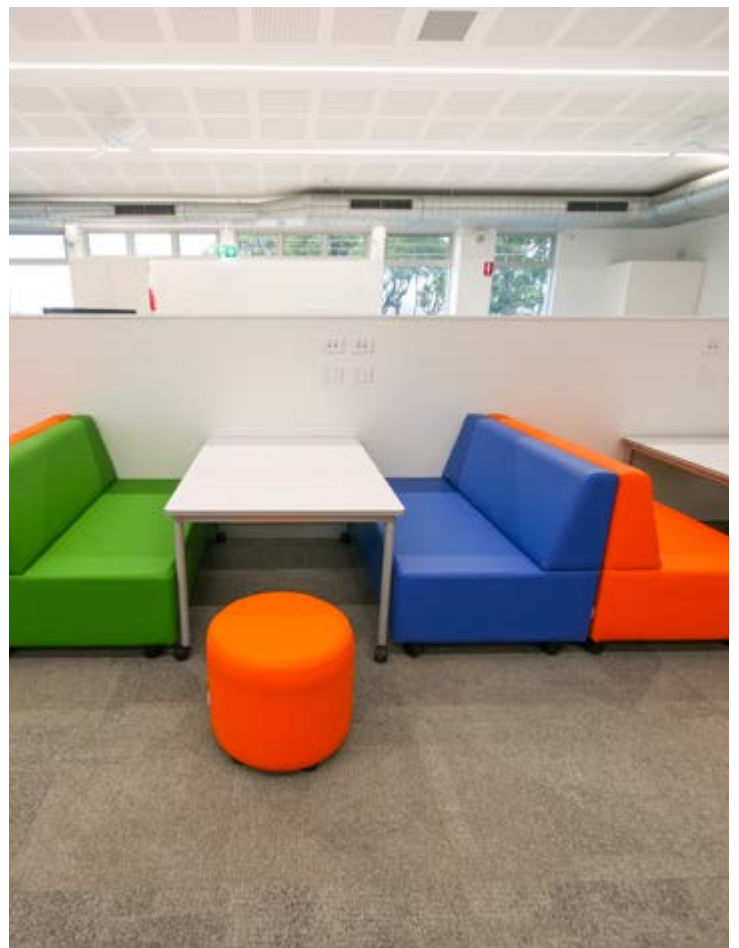

## New innovative learning environments

This inspiring project has delivered an innovative learning environment for the current and future generations of young minds.

Innovative learning environments provide flexibility so teachers can best provide authentic opportunities for student engagement. The learning spaces:

- are adaptable to accommodate small or large groups
- include learning centres with flexible spaces that allow students to use information communication technologies in a variety of settings
- provide opportunities to enhance skills in collaboration, communication, critical thinking, problem solving and creativity.
