

# James Meehan High School

## Project update | June 2025

Dear staff, parents and carers,

The NSW Government is committed to delivering high potential and gifted education (HPGE) in every school by investing an additional \$50 million into the HPGE Partner School program. This is in addition to the \$50 million investment in the 2024/25 NSW Budget which has already started to benefit 13 high schools across the state.

Under the program, James Meehan High School will receive facility upgrades to accommodate increased enrolments, broaden educational opportunities and facilitate the delivery of tailored HPGE course offerings.

### Project overview

The upgrades will include:

new cafe facility

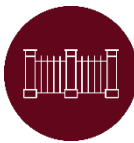

upgrade to Technology and Applied Science (TAS) spaces

upgrade to a science laboratory

upgrade to Science, Technology, Engineering and Mathematics (STEM) facilities

School entrance refresh, including way finding, lighting and landscaping.

Planning and design work will be undertaken throughout the year.

### More information

We will keep the community updated and provide more information as it becomes available.

If you have any questions about this project, you can contact the NSW Department of Education during business hours on the contact det
