Investing in our schools

The NSW Government is committed to expanding high potential and gifted education (HPGE) opportunities in NSW public schools. This includes a multi-million dollar investment into the HPGE Partner School Program.

Under the program, 33 high schools including Lithgow High School will receive facility upgrades to accommodate increased enrolments, broaden educational opportunities and facilitate the delivery of tailored HPGE offerings.

Progress Summary

Since our update in [December 2024](#), we are pleased to advise the project is progressing well.

During Term 1 2025, designs for the creative art rooms, music rooms and multipurpose hall were created in consultation with the school and technical experts.

In Term 3 2025, work on these spaces started and includes:

- new configuration of rooms
- replacing flooring
- new wall sheeting and paint
- installation of new audiovisual (AV) system.

What is happening in Term 4

The next stage of work will include upgrades to industrial arts spaces, library, school entrance and external façade. The designs for these spaces will be created in consultation with the school and technical experts. We look forward to sharing updates with the community as the project continues.

School operations and construction information

The school has played a central role in making decisions throughout the process and will continue to guide each step moving forward.

All work will be carried out in consultation with school leadership to ensure there is no disturbance to students sitting their Higher School Certificate (HSC) exams.

For information on how construction will be managed, visit the School Infrastructure website: [Managing construction impacts in your community](#).

More information

We will keep the community updated and provide more information as it becomes available. Future updates will be published on the Lithgow High School [project page](#) which you can access by scanning the QR code.

If you have any questions about this work, please contact the NSW Department of Education on the details below.
