

Tamworth High School

Project update

October 2025

Investing in our schools

The NSW Government is committed to expanding high potential and gifted education (HPGE) opportunities in NSW public schools. This includes a multi-million dollar investment into the HPGE Partner School Program.

Under the program, 33 high schools including Tamworth High School will receive facility upgrades to accommodate increased enrolments, broaden educational opportunities and facilitate the delivery of tailored HPGE offerings.

Progress summary

Since our update in [March 2025](#), we are pleased to advise the project is progressing well.

Replacement of the glass louvres with glass windows between teaching spaces and hallways in buildings A, B, C, D and H have been finished.

The tender to design and build the horticulture shed has been awarded to Shay Brennan Constructions.

The tender to design and build the gymnasium shed has been awarded to Brownrite Building Group.

Upgrades to Technological and Applied Studies (TAS) rooms are in their final planning stages and will go to tender shortly.

School leadership has reviewed plans for the library, hall and meeting room, and is currently reviewing plans for the food technology room, façade and covered walkways. Once approved, a Review of Environmental Factors (REF) will be prepared to support the delivery of these projects.

School operations and construction information

The school has played a central role in making decisions throughout the process and will continue to guide each step moving forward.

All work will be carried out in consultation with school leadership to ensure there is no disturbance to students sitting their Higher School Certificate (HSC) exams.

For information on how construction will be managed, visit the School Infrastructure website: [Managing construction impacts in your community.](#)

More information

We will keep the community updated and provide more information as it becomes available. Future updates will be published on the Tamworth High School [project page](#) which you can access by scanning the QR code.

If you have any questions about this work, please contact the NSW Department of Education on the details below.
