October 2019

Stormwater works on Chalmers Street

Dear neighbour,

We are writing to inform you that on Wednesday 23 October, our contractor will commence stormwater drainage works to the area immediately north of 127 Chalmers Street. These works will continue for approximately four weeks (weather dependent).

The works will take place from Monday to Friday between 7am and 6pm, with the exception of work in the kerbside bus lane which will be between 10am and 3pm. On Saturdays, works will take place between 7.30am and 3.30pm.

Traffic changes during the works will affect the two northbound kerbside lanes on Chalmers Street near Belvoir Street, including the bus lane. Traffic in the immediate area will be reduced to two lanes. Traffic control personnel will be on site to assist motorists and pedestrians around the work site. A traffic management plan showing the works location is attached to assist you with access.

During the works there will be some temporary partial and full footpath closures and bus stop ID 201015 will be relocated 20 metres further north (towards Central Station), on the western side of Chalmers Street. The temporary bus stop location is shown on the attached plan.

For your safety, please comply with any directives from the traffic control personnel managing vehicle and pedestrian movements during the works.

We thank you for your patience and consideration during these important works.
