## Inner Sydney High School

### Project update

July 2019

#### Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

Inner Sydney High School will provide 47 secondary teaching spaces across 14 storeys, and accommodate up to 1,200 students from Years 7 to 12.

#### Progress Update

Major services diversions (stormwater, power, and sewage) have been completed in Prince Alfred Park and the footpath and turf have been reinstated. The new section of path has reopened to the public.

Refurbishment works in the heritage buildings along Chalmers and Cleveland Streets are progressing in preparation for the school's first Year 7 students in 2020.

The main tower construction is now at ground level. Formwork for the tower lift shaft is 10 metres above the ground and can be seen from a distance.

#### Upcoming activities

Upcoming activities include further heritage building refurbishment and advancement of the main tower.

The beautiful vaulted timber ceiling in the main heritage building is being retained and restored
