Inner Sydney High School

Project update

November 2019

Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

Activities are ramping up for Inner Sydney High School, in preparation for the first intake of Year 7 students on Day 1 Term 1 2020. School Infrastructure is working closely with the Principal and staff to ensure students have a great first day experience at their new school.

We will advise the community in November/December about the opening of the school and what to expect on Day 1 Term 1 in January 2020.

- The main entry concrete link bridge has been poured.
- The tower lift jump-form is up to level 8.
