Inner Sydney High School

Project update and summer works

December 2020

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

- The Inner Sydney High School project is delivering a new co-educational high school in the heart of Sydney.
- It incorporates heritage with new buildings to deliver accessible, innovative and flexible learning spaces that are engaging and supportive for students and teachers.
- The new tower delivers a 14-storey education facility in response to metropolitan Sydney's increasing student community.
- Completion of the new 14-storey tower will occur ready to receive students in Years 7 and 8 on Day 1 Term 1 2021.

Progress update

The completion and fit out of the modern 14-storey tower guarantees an exciting start to school in 2021 for students at Inner Sydney High School.

The learning spaces are technology-rich and designed to provide adaptive learning contexts, facilitating both collaboration and personalised learning.

The location and design of the school offers a range of active transport options - walking, public transport and cycling. In addition to the main entrance off Chalmers Street the school has a separate entry from Prince Alfred Park for bicycles, with secure bicycle storage.

Next steps

External works including landscaping will continue at the school over the summer holidays in preparation for the start of Term 1 2021 when the current Year 7 move to Year 8 and the school welcomes a new Year 7 cohort.

Summer holiday works

Frequently asked questions

What works will be completed over the holidays?

Construction activities will continue during the summer holidays with landscaping and external works to the public domain (to the north of the school) including external fencing.

What are the construction working hours?

Chalmers Street – the project involves an upgrade to the streetscape and stormwater works along Chalmers Street. We have temporarily ceased all night activities and worked with Transport for NSW to obtain approval for weekday and weekend daytime hours to continue the work. This start from 7 December and will go through to 24 December.

Monday to Friday: 10:00am to 7:00pm

Weekend works December 19 and 20 only: 7:00am to 7:00pm

Will construction take place over Christmas and New Year?

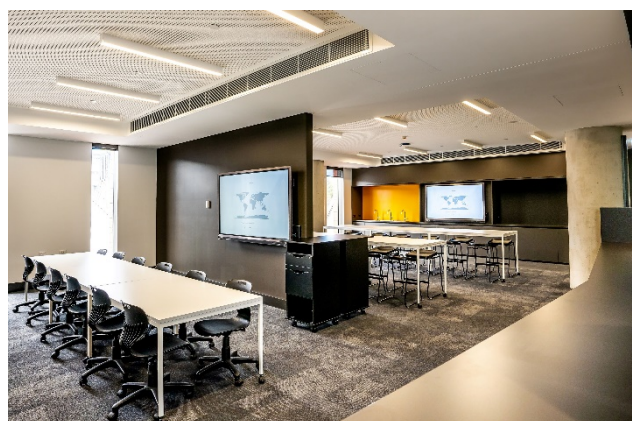

No work will be undertaken on public holidays or Sundays.

How will traffic be managed?

Traffic control and security measures will be in place where required for the safety of the community.

Who can I contact if I have a concern about construction work over the holidays?

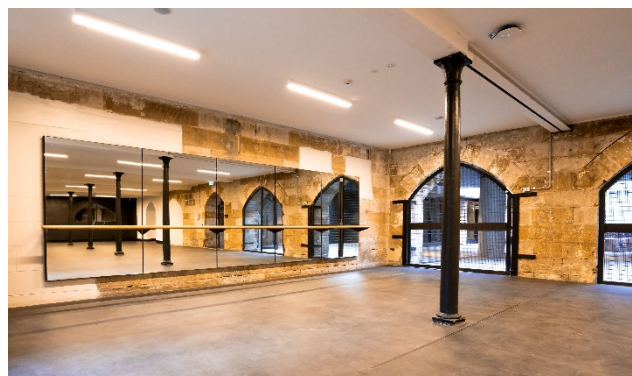

If you have any queries or concerns about this project you can contact School Infrastructure NSW during business hours on 1300 482 651. School Infrastructure NSW will be closed from 5pm Thursday 24 December, to 9am Monday 11 January inclusive. In an emergency, call triple zero (000).
