

Jannali East Public School

Works notification

5 November 2021

Dear residents,

Asbestos containing material has been found in the location of the new school hall. The material has been confirmed as bonded asbestos, which means it is attached to other material and cannot be crumbled by light pressure.

We will remediate the site outside of school hours over the weekends of 20 and 21 November, 27 and 28 November, 4 and 5 December, and 11 and 12 December in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations by licensed and accredited asbestos contractors.

Occupational hygienists will monitor the remediation work in strict accordance with all applicable legislation, regulations, policies and guidelines.

The works area will remain out of bounds to students for the total duration of the works. Construction fencing will be in place during and after remediation works to restrict access into the site to school staff and students. A clearance certificate will be provided by the occupational hygienist before the area transitions to the construction site for the new hall.

A comprehensive COVID-19 Safety Plan is in place for the site and the contractor will enforce strict compliance.

The health, safety, and well-being of the school and the local community is our highest priority and we will continue to keep you updated.
