Jannali East Public School

Project update

April 2021

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

An upgrade is underway for a new hall at Jannali East Public School.

The hall will include a canteen, sports storage, and out-of-school hours care facilities.

Progress summary

- Tenders have been received for the design and construct contract, and are being assessed.
- The schematic designs have been finalised.
- The Development Application for the project has been lodged.

Next steps

The Development Application has been lodged with Sutherland Shire Council. The application can be viewed and community can provide a submission during the public exhibition period. See Sutherland Shire Council website for more details.

www.sutherlandshire.nsw.gov.au

Preparation of the site may start soon after award of the construction contract. The main construction work will start after planning approval is granted.

The Department of Education is committed to ensuring that work is completed safely and efficiently and with minimal impact to the local community.

Thank you for your cooperation during this important work.

Frequently asked questions

When will the school hall be complete?

The school hall is planned to be ready for Day One, Term One, 2022, subject to planning approval.

Where is the school hall going to be located?

The north east corner of the school, alongside Box Rd. This position allows hall access from the street frontage, while maintaining student access to amenities such as the canteen and toilets from the playground.

A number of trees are being removed, is there a landscape plan in place?

Tree removal as part of the project complies with statutory requirements.

As part of the project, a landscape design has been prepared. The plan is designed to complement the hall and surrounds.

What steps will be taken to control noise and dust impacts during construction?

Noise will be kept to a minimum as best as possible during the works. Noise levels on site will be managed in accordance with the noise control guidelines that are outlined in the EPA Environmental Noise Control Manual for construction and demolition works.

Dust from construction works will be hosed down as required.

Will there be disruption in school operations?

School Infrastructure NSW (SINSW) will work closely with the school leadership to ensure continuity of school operations and to minimise any potential impact on student learning during construction.

What safety measures are in place?

The health and safety of the community is our highest priority. Temporary fencing will be erected around the construction site to secure the area and prevent public access. All work will be undertaken in accordance with SafeWork NSW regulation.

Can I provide feedback on the Development Application?

The Development Application will be available to view at Sutherland Shire Council. You can comment on the application by providing a submission to council while it is on public exhibition.

At the NSW Department of Education, we recognise the traditional custodians of the lands and waterways where we work and live. We celebrate the First Peoples' unique cultural and spiritual relationship to Country and acknowledge the significance of Aboriginal cultures in Australia.
