# Jannali East Public School

Project update | November 2022

## Investing in the community

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

## Progress summary

Thank you for your patience as we delivered a new hall to Jannali East Public School. The main construction works are now complete and the new hall was handed over to the school for early use on Monday 21 November 2022.

This exciting project has delivered a new school hall which includes a canteen, sports storage, and out of school hours care (OSHC) facilities.

## Next steps

During the coming weeks, the builders will be:

- finishing the landscaping around the new school hall
- installing new permanent handrails and balustrades to replace the temporary ones
