

# Jerrabomberra High School upgrade

Project update | October 2023

## Investing in our schools

As part of the NSW Government's plan to rebuild essential services, the 2023-24 Budget is delivering a historic \$1.4 billion for new and upgraded schools in regional NSW. This targeted investment in growing communities will ensure working families get access to a world class public education.

The 2023-24 Budget committed funding to progress with a Jerrabomberra High School Upgrade.

## Jerrabomberra High School upgrade

Construction of the new permanent high school is ongoing, delivering modern facilities to accommodate approximately 500 students.

The Development Application for the Stage 2 upgrade was lodged in mid-2023. When complete, the Stage 2 upgrade will expand the Jerrabomberra High School to cater for up to 1,000 students.

This school will not only provide essential education infrastructure but also accommodate the anticipated increase in enrolments in the area and allow families to conveniently access educational facilities close to home.

Early planning has begun. At this stage of the project, site investigations and needs analysis are underway. This phase involves consideration and studies of demographic trends, education requirements, intake areas, technical studies, planning requirements, transport links and possible shared area opportunities.

In the next stage of the project architects, engineers and town planners will be appointed and analysis of the site takes place, along with the development of the concept design. Doing so means that we consider the needs of the local area now and into the future, and ensure the right school is designed for the community.

Further updates will be released as the project progresses.

## How can I get involved?

We are committed to working together with our school communities and stakeholders to deliver the best learning facilities for students. As the project progresses from the planning phase, we will share details with the community for feedback.

A dedicated project page has been published on the School Infrastructure NSW website, which is updated as the project progresses. You can also contact us via our community information line and email using the details below.

## Want to know more about how we build and upgrade schools?

To learn more about School Infrastructure NSW, and how we deliver new and upgraded schools, simply scan the QR Code, or visit [edu.nsw.link/SchoolShowcase](https://edu.nsw.link/SchoolShowcase).
