

Jindabyne Education Campus

Works notification

November 2022

A project is underway to build a new education campus in Jindabyne as part of the Snowy Mountains Special Activation Precinct. The purpose-built campus will include a separate primary school and high school with modern facilities including new teaching and learning spaces, new libraries, new halls, playing fields and open spaces. The campus will also include a new Connected Learning Centre delivered by TAFE NSW.

The project is a State Significant Development (SSD15788005) and the application has been approved by the NSW Department of Planning and Environment (DPE).

Site establishment

Site establishment to prepare the site for construction is underway. These works include a site survey and installation of site facilities and amenities including site safety fencing and gates.

Managing construction impacts: feedback

Conditions of Approval have been issued for the project, which require School Infrastructure NSW (SINSW) and our contractor to prepare a Construction Noise and Vibration Management Sub-Plan (CNVMSP). The CNVMSP needs to include strategies that have been developed with the community for the delivery of the project.

There are noise mitigation strategies that are already planned as part of the construction works, such as:

- Preparing procedures to achieve the noise management levels, to ensure compliance with the noise and vibration management criteria outlined in the SSD application consent.
- Compliance with the 'Construction Hours' included in the SSD application consent conditions (Sections C4 and C5) to minimise noise and vibration impacts of the development.
- Design considerations to minimise the extent of any rock breaking and excavation in rock.
- Task specific acoustic shielding where practical, to minimise noise from the site.
- Under the conditions of approval, all work, including building/demolition and excavation work, and activities in the vicinity of the site generating noise, must only be carried out between 7 am and 6 pm on Mondays to Fridays, and 8 am and 1 pm on Saturdays. Provided noise levels do not exceed the existing background noise level plus 5dB, works may also be undertaken between 6 pm and 7 pm, Mondays to Fridays and between 1pm and 4 pm, Saturdays.
- No work must be carried out on Sundays or public holidays, unless approved prior by the consent authority.

If you would like to contribute any recommendations or strategies that you feel would be beneficial and feasible for the project to implement, please contact us on the below contact information by 11 November 2022.

Working hours

Construction will take place between 7:00am to 5:00pm Monday to Friday, and 8:00am to 1:00pm on Saturdays. No work will take place on Sundays or public holidays unless approved and notification is provided.

We are here to make sure that work is completed safely and efficiently and will minimise impact on the community at every opportunity.

We will continue to keep the community informed of progress on the project. Please visit the project webpage for the latest updates.
