1 Introduction

Kent Road Public School is located at the corner of Kent Road and Herring Road in Marsfield, NSW. It is approximately 1.3 km south-west of Macquarie Park and is within the City of Ryde Local Government Area. The Department of Education (DoE, the Applicant) has gained State Significant Development (SSD) approval for the redevelopment of Kent Road Public School, including:

- site preparation;
- construction of three (3) new two (2) to three (3) storey buildings to allow for increased student;
- population, containing;
 - 34 Homebase spaces;
 - canteen;
 - administration facilities;
 - staff facilities;
 - special program/counselling rooms;
- construction of a new Covered Outdoor Learning Area (COLA);
- reconfiguration of car drop-off / pick up arrangements on Kent Road;
- landscaping and fencing; and
- tree removal.

Table 1.1 **Project Details**

Item	Details
Project Name	Kent Road Public School Redevelopment
Project Application No.	SSD 9344
Site Address	Kent Road, Marsfield NSW, 2122
Reporting Type	Pre-Construction Compliance Report 30
Reporting Dates	August 2019 – 28 November 2019

1.1 Project Activity Summary

This PCCR details the pre-construction earthworks phase compliance status for the project. The works covered by this report include all pre-construction works required from the date of the SSD Approval for the Project (30 August 2019) to submission of this report (28 November 2019) in relation to the commencement of earthworks. No assessment of pre-construction compliance with other aspects of the SSD Approval are covered by this report.

As the project was in the pre-construction phase for the duration of this report period, activities undertaken included the following:

- The Construction Environmental Management Plan (CEMP) and sub-plans have been completed for the Project and have been submitted to the Department on and has satisfied the by the Certifying Authority in accordance with the relevant approval conditions;
- Engagement of design consultants, trade and building specialists and other contracting companies for the construction phase;
- Receipt of the necessary Crown Certificate documentation to commence the infrastructure earthworks on the site;
- The Compliance Monitoring and Reporting Program and Independent Audit Programmes have been submitted to the DPIE and approved; and
- Early Works construction has been completed in accordance with separate Development Consents.

1.2 Key Project Personnel

Table 1.2 below provides the key contact details for the various personnel relevant to this project and this report.

Table 1.2 Key Contact Details

Name	Role	Contact No.
Greg Malenstein	Emergency / Site Project Manager	0408 458 492
Scott Steward	Site Manager	0438 241 478
Community Hotline Number		1300 482 651

1.2.1 Purpose of this report

In accordance with SSD 9344 Conditions B33 to B36 and the Compliance Monitoring and Reporting Program for the project, the proponent is required to complete this Pre-Construction Compliance Report (PCCR) to the satisfaction of the Department of Planning, Infrastructure and Environment (DPIE) and the Certifying Authority.

In addition, this document has also been prepared in accordance with:

- Section 3.0 of the DPIE *'Compliance Reporting Post Approval Requirements (June 2018)'*, which describes the Compliance Reporting requirements.
- The Compliance Monitoring and Reporting Program for the project.

This PCCR has been prepared in accordance with CoA B34 to report on the compliance status of the Project prior to commencement of construction. B34 of SSD 9344 States – *'Compliance Reports of the project must be carried out in accordance with the Compliance Reporting Post Approval Requirements (Department 2018).'*

This PCCR details the compliance status against the conditions of approval relevant to the preconstruction earthworks phase.

2 Compliance Status Summary

2.1 Compliance Status Descriptors

The status of each compliance requirement applicable during the reporting period has been recorded by using the relevant descriptors in Table 2.1 below. No other terms will be used to describe compliance status.

Table 2.1 Compliance Status Descriptors

Status	Description
Compliant	EMM has collected sufficient verifiable evidence to demonstrate that all elements of the requirement have been complied with.
Non-compliant	EMM has identified a non-compliance with one or more elements of the requirement.
Not triggered	A requirement has an activation or timing trigger that has not been met at the phase of the development when the compliance assessment is undertaken, therefore an assessment of compliance is not relevant.

2.2 Total Number of Non-compliances

No non-compliances were noted in relation to the earthworks pre-construction phase for this project.

2.3 Non-Compliance Details

Nil

3 Previous Report Actions

As this is the first Pre-Construction report, there have been no previous reports, and hence no actions.

4 Incidents / Complaints

No environmental incidents or complaints have been reported during the pre-construction phase.

Appendix A

Compliance Table

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
A1	In addition to meeting the specific performance measures and criteria in this consent, all reasonable and feasible measures must be implemented to prevent, and, if prevention is not reasonable and feasible, minimise any material harm to the environment that may result from the construction and operation of the development.	Throughout	Not triggered		Includes site inspection records, incident reports/register and Agency correspondence in relation to environmental incidents (show cause notices, warnings, PINs etc)
A2	The development may only be carried out: (a) in compliance with the conditions of this consent; (b) in accordance with all written directions of the Planning Secretary; (c) generally in accordance with the EIS and Response to Submissions; (d) generally in accordance with Modification Assessments; (e) in accordance with the approved plans in the table below: Architectural Drawings prepared by Gardner Wetherill Associates Dwg No. Rev Name of Plan Date SSDA-0202 D Concept Diagram 7/11/2018 SSDA-0400 H Proposed Site Plan 7/11/2018 SSDA-1200 E Ground Floor Plan 7/11/2018 SSDA-1201 E Level 1 Plan 7/11/2018 SSDA-1202 E Level 2 Plan 7/11/2018 SSDA-1300 E Roof Plan 7/11/2018 SSDA-1501 D Site Elevations 7/11/2018 SSDA-1601 D Sections 7/11/2018 SSDA-1602 D Detailed Section 7/11/2018 SSDA-1801 D Typical GF Homebase, Canteen & Admin FF&E Plan 7/11/2018 SSDA-1802 D Typical L1 & L2 Homebase FF&E Plan 7/11/2018 SSDA-1910 D Materials and Finishes 01 7/11/2018 SSDA-1911 D Materials and Finishes 02 7/11/2018 Landscape Plans prepared by iScape Landscape Architecture Dwg No. Rev Name of Plan Date 80.18/191'A' B Landscape Sketch Plan September 2018 80.18/192'A' A Materials Palette September 2018	Throughout	Not triggered		Evidence of compliance with applicable consent conditions for Pre-Construction (this document / report)
A3	Consistent with the requirements in this consent, the Planning Secretary may make written directions to the Applicant in relation to: (a) the content of any strategy, study, system, plan, program, review, audit, notification, report or correspondence submitted under or otherwise made in relation to this consent, including those that are required to be, and have been, approved by the Planning Secretary; (b) any reports, reviews or audits commissioned by the Department regarding compliance with this approval; and (c) the implementation of any actions or measures contained in any such document referred to in (a) above.	Throughout	Not triggered		Review of written directions from the Department (if any)
A4	The conditions of this consent and directions of the Planning Secretary prevail to the extent of any inconsistency, ambiguity or conflict between them and a document listed in condition A2(c) or A2(d). In the event of an inconsistency, ambiguity or conflict between any of the documents listed in condition A2(c) and A2(d), the most recent document prevails to the extent of the inconsistency, ambiguity or conflict.	Throughout	Not triggered		Identified by exception
A5	This consent lapses five years after the date of consent unless the works associated with the development have physically commenced.	Throughout	Not triggered		Review of documentation of commencement of site works
A6	The Applicant must comply with all relevant prescribed conditions of development consent under Part 6, Division 8A of the EP&A Regulation.	Throughout	Not triggered		Identified by exception
A7	In the event of a dispute between the Applicant and a public authority, in relation to an applicable requirement in this approval or relevant matter relating to the Development, either party may refer the matter to the Planning Secretary for resolution. The Planning Secretary's resolution of the matter must be binding on the parties.	Throughout	Not triggered		Identified by exception
A8	For work costing \$25,000 or more, a Long Service Levy must be paid. For further information please contact the Long Service Payments Corporation Helpline on 131 441.	Pre-construction	Compliant - closed out	Long Service Levy Receipt issued to St Hilliers Property Pty Ltd on 1/05/19.	Receipts for payment
A9	Any advice or notice to the consent authority must be served on the Planning Secretary.	Throughout	Compliant - closed out	All notices relating to Pre-Commencement conditons have been served on the Planning Secretary.	Documentation of correspondence from DPIE (if any)
A10	Where conditions of this consent require consultation with an identified party, the Applicant must: (a) consult with the relevant party prior to submitting the subject document for information or approval; and (b) provide details of the consultation undertaken including: (i) the outcome of that consultation, matters resolved and unresolved; and (ii) details of any disagreement remaining between the party consulted and the Applicant and how the Applicant has addressed the matters not resolved.	Throughout	Compliant - closed out	Completed through the review of relevant conditions requiring consultation below.	Review as required
A11	The project may be constructed and operated in stages. Where staged construction or operation is proposed, a Staging Report (for either or both construction and operation as the case may be) must be prepared and submitted for the approval of the Planning Secretary. The Staging Report must be submitted to the Planning Secretary no later than one month before the commencement of construction of the first of the proposed stages of construction (or if only staged operation is proposed, one month before the commencement of operation of the first of the proposed stages of operation).	Throughout	Not triggered		Review of staging report(s)
A12	The Staging Report must: (a) if staged construction is proposed, set out how the construction of the whole of the project will be staged, including details of work and other activities to be carried out in each stage and the general timing of when construction of each stage will commence and finish; (b) if staged operation is proposed, set out how the operation of the whole of the project will be staged, including details of work and other activities to be carried out in each stage and the general timing of when operation of each stage will commence and finish (if relevant); (c) specify how compliance with conditions will be achieved across and between each of the stages of the project; and (d) set out mechanisms for managing any cumulative impacts arising from the proposed staging.	Throughout	Not triggered		Review of staging report(s)

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
A13	The project must be staged in accordance with the Staging Report, as submitted to the Planning Secretary.	Throughout	Not triggered		Review of staging report(s)
A14	Where staging is proposed, the terms of this approval that apply or are relevant to the works or activities to be carried out in a specific stage must be complied with at the relevant time for that stage.	Throughout	Not triggered		Review of staging report(s)
A15	With the approval of the Planning Secretary, the Applicant may: (a) prepare and submit any strategy, plan or program required by this consent on a staged basis (if a clear description is provided as to the specific stage and scope of the development to which the strategy, plan, program or drawing applies, the relationship of the stage to any future stages and the trigger for updating the strategy, plan or program); (b) combine any strategy, plan, program or drawing required by this consent (if a clear relationship is demonstrated between the strategies, plans or programs that are proposed to be combined); and (c) update any strategy, plan, program or drawing required by this consent (to ensure the strategies, plans, programs and drawings required under this consent are updated on a regular basis and incorporate additional measures or amendments to improve the environmental performance of the development).	Throughout	Not triggered		Review of approved strategy plan/ program and drawings if combined in accordance with this condition
A16	If the Planning Secretary agrees, a strategy, plan, program or drawing may be staged or updated without consultation being undertaken with all parties required to be consulted in the relevant condition in this consent.	Throughout	Not triggered		Review of approved strategy plan/ program and drawings if combined in accordance with this condition
A17	If approved by the Planning Secretary, updated strategies, plans, programs or drawings supersede the previous versions of them and must be implemented in accordance with the condition that requires the strategy, plan, program or drawing.	Throughout	Not triggered		Review of approved strategy plan/ program and drawings if combined in accordance with this condition
A18	All new buildings and structures, and any alterations or additions to existing buildings and structures, that are part of the development, must be constructed in accordance with the relevant requirements of the BCA and any additional requirements of the Subsidence Advisory NSW where the building or structure is located on land within a declared Mine Subsidence District. Notes: • Part 8 of the EP&A Regulation sets out the requirements for the certification of the development. • Under section 21 of the Coal Mine Subsidence Compensation Act 2017, the Applicant is required to obtain the Chief Executive of Subsidence Advisory NSW's approval before carrying out certain development in a Mine Subsidence District.	Construction	Not triggered		Review of QA documentation for construction of buildings
A19	The external walls of all buildings including additions to existing buildings must comply with the relevant requirements of the BCA.	Construction	Not triggered		Review of QA documentation for construction of buildings
A20	References in the conditions of this consent to any guideline, protocol, Australian Standard or policy are to such guidelines, protocols, Standards or policies in the form they are in as at the date of this consent.	Throughout	Not triggered		Noted
A21	Consistent with the conditions of this consent and without altering any limits or criteria in this consent, the Planning Secretary may, when issuing directions under this consent in respect of ongoing monitoring and management obligations, require compliance with an updated or revised version of such a guideline, protocol, Standard or policy, or a replacement of them.	Throughout	Not triggered		Noted
A22	Any condition of this consent that requires the carrying out of monitoring or an environmental audit, whether directly or by way of a plan, strategy or program, is taken to be a condition requiring monitoring or an environmental audit under Division 9.4 of Part 9 of the EP&A Act. This includes conditions in respect of incident notification, reporting and response, noncompliance notification, Site audit report and independent auditing. <i>Note: For the purposes of this condition, as set out in the EP&A Act, "monitoring" is monitoring of the development to provide data on compliance with the consent or on the environmental impact of the development, and an "environmental audit" is a periodic or particular documented evaluation of the development to provide information on compliance with the consent or the environmental management or impact of the development.</i>	Throughout	Not triggered		Noted
A23	At least 48 hours before the commencement of construction until the completion of all works under this consent, or such other time as agreed by the Planning Secretary, the Applicant must: (a) make the following information and documents (as they are obtained or approved) publicly available on its website: (i) the documents referred to in condition A2 of this consent; (ii) all current statutory approvals for the development; (iii) all approved strategies, plans and programs required under the conditions of this consent; (iv) regular reporting on the environmental performance of the development in accordance with the reporting arrangements in any plans or programs approved under the conditions of this consent; (v) a comprehensive summary of the monitoring results of the development, reported in accordance with the specifications in any conditions of this consent, or any approved plans and programs; (vi) a summary of the current stage and progress of the development; (vii) contact details to enquire about the development or to make a complaint; (viii) a complaints register, updated monthly; (ix) audit reports prepared as part of any independent audit of the development and the Applicant's response to the recommendations in any audit report; (x) any other matter required by the Planning Secretary; and (b) keep such information up to date, to the satisfaction of the Planning Secretary. A24	The Applicant must ensure that all of its employees, contractors (and their sub-contractors) are made aware of, and are instructed to comply with, the conditions of this consent relevant to activities they carry out in respect of the development.	Throughout	Not triggered		Review of induction forms, presentation and attendance records, toolbox talks
A25	Access to the future County Road does not form part of this approval. Should access to the County Road be required following its construction, prior consent must be obtained from the landowner.	Throughout	Not triggered		Not applicable
B1	The Department must be notified in writing of the dates of commencement of physical work and operation at least 48 hours before those dates.	Pre-construction	Compliant - closed out	PLAN AUTH - 191113 - KENT ROAD - SSD9344- B1 letter submitted to DPIE by School Infrastructure NSW on 13/11/19	Notification to department of start of works. Include date of submission and date of start of physical work
B2	If the construction or operation of the development is to be staged, the Department must be notified in writing at least 48 hours before the commencement of each stage, of the date of commencement and the development to be carried out in that stage.	Throughout	Not triggered		Notification to department of start of staged works. Include date of submission and date of start of physical work
B3	Prior to the commencement of construction, the Applicant must submit to the satisfaction of the Certifying Authority structural drawings prepared and signed by a suitably qualified practising Structural Engineer that demonstrates compliance with: (a) the relevant clauses of the BCA; and (b) this development consent.	Pre-construction	Compliant - closed out	TTW Structural Certification - 171518 -SBCA dated 4/11/19. PCA acceptance in Bulk Earhtworks Crown Certificate CRO -18165	Evidence of approval from Certifying Authority for BCA and development consent compliant structural drawings

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
B4	Prior to the commencement of construction (excluding earthworks), the Applicant must provide the Certifying Authority with documented evidence that the products and systems proposed for use or used in the construction of external walls, including finishes and claddings such as synthetic or aluminium composite panels, comply with the requirements of the BCA. The Applicant must provide a copy of the documentation given to the Certifying Authority to the Planning Secretary within seven days after the Certifying Authority accepts it.	Pre-construction	Not triggered		Evidence of submission of evidence to Certifying Authority and Planning Secretary that products and systems proposed for use or used in the construction of external walls, including finishes and claddings comply with the requirements of the BCA. Include dates of submission of evidence.
B5	Prior to the commencement of construction, the Applicant must ensure that the recommendations stated in Section 7.2 of the Aboriginal Cultural Heritage Assessment Report dated 18 April 2019, prepared by RPS and titled Kent Road public school Aboriginal Cultural Heritage Assessment Report (ACHAR) are strictly adhered to.	Pre-construction	Compliant - closed out	St Hilliers Property Pty Ltd letter dated 10/09/2019 confirming recommendations stated in S7.2 ACHAR Report of 18/04/19 will be strictly adhered to. Site induction process includes reference to requirements.	
B6	Prior to the commencement of construction, the Applicant must: (a) consult with the relevant owner and provider of services that are likely to be affected by the development to make suitable arrangements for access to, diversion, protection and support of the affected infrastructure; (b) prepare a dilapidation report identifying the condition of all public infrastructure in the vicinity of the site (including roads, gutters and footpaths); and (c) submit a copy of the dilapidation report to the Planning Secretary, Certifying Authority and Council.	Pre-construction	Compliant - closed out	(a) Email from Tony Davoren, Ausgrid Data North, to Ross Gardner, Head Design Consultant re connection of services, dated 1 April 2019; - Post Approval Consultation Record, phone call between Ryde City Council and St Hilliers re protection of public infrastructure, dated 23 October 2019; - Post Approval Consultation Record, e-mail to Ryde City Council and St Hilliers re protection of public infrastructure & dilapidation report, dated 23 October 2019; - Post Approval Consultation Record, e-mail to Ryde City Council and St Hilliers re their review of the dilapidation report, dated 29 October 2019; - E-mail receipt from Ryde City Council to St Hilliers re Kent Road Public School correspondence; - E-mail receipt from Ryde City Council to St Hilliers re Dilapidation Report dated 24 October 2019; - E-mail from Daniel Pearse, Ryde City Council to Alex Tattle, St Hilliers reconnection to council infrastructure, dated 5 November 2019; - Letter from the Network Connections Team, Jones Nicholson to Jemena dated 1 July 2019; - E-mails between Landpartners and St Hilliers re Section 73 requirements, dated 3 October 2019, 11 October 2019, 22 October 2019, 24 October 2019 and 25 October 2019. - Letter from Sydney Water Corporation to Jones Nicholson re Section 73 Compliance Certificate, dated 24 September 2019. - Post Approval Consultation Record for St Hilliers and Telstra Customer Service re issue of the Dilapidation Report, dated 29 October 2019. (b) Dilapidation Report prepared by St Hilliers Property Pty Ltd (c) Copy of dilapidation report issued to DPIE on 11/11/19, Council on 24/10/19 and accepted by PCA on 25/11/19. (a) Dilapidation Report prepared by St Hilliers Property Pty Ltd. Supporting letter from assetgeoenviron re geotechnical requirements dated 24 October 2019.	Evidence of consultation with relevant owner and provider of services that are likely to be affected by the development.
B7	Prior to the commencement of construction, the Applicant must submit a pre-commencement dilapidation report to Council and the Certifying Authority. The report must provide an accurate record of the existing condition of adjoining private properties and Council assets that are likely to be impacted by the proposed works.	Pre-construction	Compliant - closed out	Dilapidation Report prepared by St Hilliers Property Pty Ltd and geotechnical report prepared by assetgeoenviron dated 24/10/19. Copy of dilapidation report issued to Council on 24/10/19 (refer B7) and accepted by PCA on 25/11/19.	Pre-commencement dilapidation report and evidence of the submission of this report to Council and the Certifying Authority.
B8	Prior to the commencement of earthworks below 0.3 metres of the existing ground level, the Applicant must: (a) undertake a detailed site investigation in the areas where excavation is proposed to occur more than 0.3 metres below existing ground level in accordance with the recommendations of the Due Diligence Soil Contamination Assessment and Indicative Waste Management Report prepared by Arcadis, dated 30 June 2018; and (b) should the results of the detailed site investigation required under a) above confirm remediation is required, the Applicant shall prepare a Remediation Action Plan (RAP) and Validation Sampling and Analysis Quality Plan and submit it to an EPA Accredited Site Auditor for review prior to the commencement of remediation works.	Pre-construction	Compliant - closed out	(a) Detailed Further Supplementary Soil contamination Report by Arcadis dated 16/10/19. (b) RAP-V1, including Validation Sampling and Analysis Quality Plan, prepared by Arcadis dated 21/11/19, issued by e-mail to and acknowledged by EPA Accredited Site Auditor, Douglas Partners Pty Ltd, on 21/11/19.	Due Diligence Soil Contamination Assessment and Indicative Waste Management Report prepared by Arcadis, results of detailed site investigation of areas where excavation is proposed to occur more than 0.3 metres below existing ground level. Remediation Action Plan and Validation Sampling and Analysis Quality Plan (if required by condition B8b). Evidence of submission of these documents to an EPA Accredited Auditor prior to commencement of remediation works.

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
B9	An Asbestos Management Plan (AMP) must be prepared in accordance with Work Safe NSW requirements. Should the results of any detailed site investigations undertaken in accordance with Condition B8 identify soils below 0.3 metres below existing ground level require remediation works comprising the removal of asbestos containing material, the AMP must be submitted to an EPA Accredited Site Auditor for review prior to the commencement of remediation works.	Pre-construction	Compliant - closed out	AMP - V0 prepared by Arcadis dated 21/11/19, issued by e-mail to and acknowledged by EPA Accredited Site Auditor, Douglas Partners Pty Ltd, on 21/11/19.	Asbestos Management Plan. Evidence of submission of Plan to an EPA Accredited Site Auditor for review prior to the commencement of remediation works (if required by condition B9)
B10	Prior to the commencement of earthworks, the Applicant must prepare an unexpected contamination procedure to ensure that potentially contaminated material is appropriately managed. The procedure must form part of the of the CEMP in accordance with condition B15 and where any material identified as contaminated is to be disposed off-site, the disposal location and results of testing submitted to the Planning Secretary prior to its removal from the site.	Pre-construction	Compliant - closed out	Section B.11.3.4.5 of CEMP Rev 4 prepared by St Hilliers Property Pty Ltd dated 25/11/19.	CEMP (unexpected contamination procedure)
B11	No later than 48 hours before the commencement of construction, a Community Communication Strategy must be submitted to the Planning Secretary for approval and approved by the Planning Secretary prior to the commencement of construction or within another timeframe agreed with the Planning Secretary. The Community Communication Strategy must provide mechanisms to facilitate communication between the Applicant, the relevant Council and the community (including adjoining affected landowners and businesses, and others directly impacted by the development), during the design and construction of the development and for a minimum of 12 months following the completion of construction.	Pre-construction	Compliant - closed out	CCS R0 dated 13/09/19, issued to DPIE by School Infrastructure NSW on 13/09/19 with SSD 9344 Post Approval Cover Letter_SSD9344_B1112 , R1 by School Infrastructure NSW dated 1/10/19 and DPIE letter of 8/10/19 confirming approval.	Evidence of submission of a Community Communication Strategy to Planning Secretary. Include date of submission to Planning Secretary
B12	The Community Communication Strategy must: (a) identify people to be consulted during the design and construction phases; (b) set out procedures and mechanisms for the regular distribution of accessible information about or relevant to the development; (c) provide for the formation of community-based forums, if required, that focus on key environmental management issues for the development; (d) set out procedures and mechanisms: (i) through which the community can discuss or provide feedback to the Applicant; (ii) through which the Applicant will respond to enquiries or feedback from the community; and (iii) to resolve any issues and mediate any disputes that may arise in relation to construction and operation of the development, including disputes regarding rectification or compensation.	Pre-construction	Compliant - closed out	CCS R1 by School Infrastructure NSW dated 1/10/19: (a) Sections 4 & 5; (b) Sections 6,7 & 8.4; (c) Section4; (d)(i) Sections4, PRG, 6 & 8.5 (ii) Section 8.5 (iii) Section 8.5	Community Communication Strategy
B13	Prior to the commencement of construction (excluding earthworks), the Applicant must register for a minimum 4 star Green Star rating with the Green Building Council Australia and submit evidence of registration to the Certifying Authority, unless an alternate certification process (and timing) is agreed to by the Planning Secretary.	Pre-construction	Not triggered	Letter from DPIE dated 26/09/19 confirming 4 month extension from the commencement of construction works for registration for Green Star Certification.	Evidence of registration of a minimum 4 star Green Star rating with the Green Building Council Australia. Evidence of submission of registration to the Certifying Authority
B14	Management plans required under this consent must be prepared in accordance with relevant guidelines, and include: (a) detailed baseline data; (b) details of: (i) the relevant statutory requirements (including any relevant approval, licence or lease conditions); (ii) any relevant limits or performance measures and criteria; and (iii) the specific performance indicators that are proposed to be used to judge the performance of, or guide the implementation of, the development or any management measures; (c) a description of the measures to be implemented to comply with the relevant statutory requirements, limits, or performance measures and criteria; (d) a program to monitor and report on the: (i) impacts and environmental performance of the development; (ii) effectiveness of the management measures set out pursuant to paragraph (c) above; (e) a contingency plan to manage any unpredicted impacts and their consequences and to ensure that ongoing impacts reduce to levels below relevant impact assessment criteria as quickly as possible; (f) a program to investigate and implement ways to improve the environmental performance of the development over time; (g) a protocol for managing and reporting any: (i) incident and any non-compliance (specifically including any exceedance of the impact assessment criteria and performance criteria); (ii) complaint; (iii) failure to comply with statutory requirements; and (h) a protocol for periodic review / update of the plan and any updates in response to incidents or matters of non-compliance. <i>Note: The Planning Secretary may waive some of these requirements if they are unnecessary or unwarranted for particular management plans</i>	Pre-construction	Compliant - closed out	SSD9344 - B15 - Condition Evidence SSD9344 - B16 - Condition Evidence SSD9344 - B17 - Condition Evidence SSD9344 - B18 - Condition Evidence SSD9344 - B19 - Condition Evidence SSD9344 - B20 - Condition Evidence	Through the review of individual management plans to confirm that DPIE has approved adequacy

B21	Prior to the commencement of construction, the Applicant must prepare a safety risk assessment of site preparation, bulk earthworks, construction and construction-related activities to determine whether it is practicable to use audible movement alarms of a type that would minimise the noise impact on surrounding noise sensitive receivers, without compromising safety.	Pre-construction	Compliant - closed out	Kent Road Public School Safety Risk Assessment dated 4/11/19 & 15/11/19 by St Hilliers Property Pty Ltd. Pg. 54 (Pg. 374 CEMP)	Safety risk assessment of site preparation, bulk earth works, construction and construction-related activities
B22	Prior to the commencement of construction, the Applicant must submit a Construction Worker Transportation Strategy to the satisfaction of the Principal Certifying Authority. The Strategy must detail the provision of sufficient parking facilities or other travel arrangements for construction workers in order to minimise demand for parking in nearby public and residential streets or public parking facilities.	Pre-construction	Compliant - closed out	Construction Worker Transportation Strategy is in in the Traffic Management Plan dated 26/11/19 by Evolution Group Pty Ltd, Pg 13 (Pg. 189 CEMP)	Construction Worker Transportation Strategy. Evidence of submission to and approval of this strategy by the Principal Certifying Authority
B23	All roads and traffic facilities outside the school boundary must be designed to meet the requirements of Council or TfNSW (RMS) (whichever is applicable). The necessary permits and approvals from the relevant road authority must be obtained prior to the commencement of road or pavement construction works.	Throughout	Not triggered		Permits and approvals from relevant road authority for roads and traffic facilities outside the school boundary

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required								
B24	Prior to the commencement of construction, the Applicant must design an operational stormwater management system for the development and submit it to the satisfaction of the Certifying Authority. The system must: (a) be designed by a suitably qualified and experienced person(s); (b) be generally in accordance with the conceptual design in the EIS; (c) be in accordance with applicable Australian Standards; (d) ensure that the system capacity has been designed in accordance with Australian Rainfall and Runoff (Engineers Australia, 2016) and Managing Urban Stormwater: Council Handbook (EPA, 1997) guidelines;	Pre-construction	Compliant - closed out	(a) (b) (c) (d) refer to B19, Construction Soil and Water Management Plan dated 19/11/19 by Taylor Thompson Whitting (NSW) Pty Ltd. Civil Design Certificate dated 20/11/19 by Taylor Thompson Whitting (NSW) Pty Ltd.	Operational stormwater management system. Evidence of submission and approval								
B25	The development must be in accordance with the Integrated Water Management Plan prepared by Taylor Thomson Whitting dated 6 November 2018 that requires the following WSUD measures to be implemented to achieve the proposal's runoff reduction and water quality: (a) installation of gross pollutant traps (b) Vegetated swales along the play area known as "raingardens"; (c) installation of a rainwater tank; (d) on-site rainwater harvest to offset for irrigation demand and toilet flushing; and (e) a stormwater maintenance plan must be prepared.	Construction	Not triggered		Evidence that WSUD measures have been designed ready for construction implementation								
B26	Prior to the installation of mechanical plant and equipment, the Applicant must incorporate the noise mitigation recommendations in the State Significant Development Application (SSDA) – Acoustic Report dated 7 November 2018 into the detailed design drawings. The Certifying Authority must verify that all reasonable and feasible noise mitigation measures have been incorporated into the design to ensure the development will not exceed the recommended operational noise levels identified in the State Significant Development Application (SSDA) – Acoustic Report dated 7 November 2018.	Construction	Not triggered		Approval from Certifying Authority verifying that all reasonable and feasible noise mitigation measures have been incorporated into the design								
B27	Prior to the commencement of vegetation clearing, the class and number of ecosystem credits in the table below must be retired to offset the residual biodiversity impacts of the development.	Pre-construction	Compliant - closed out	NSW Biodiversity Conservation Trust confirmation dated 29/10/19 re Biodiversity Credit 1237 for Biodiversity credit retirement of 4 credits for SSD9344.	Evidence of ecosystem credit retirement								
B28	The requirement to retire credits in condition B28 above may be satisfied by payment to the Biodiversity Conservation Fund of an amount equivalent to the class and number of ecosystem credits, as calculated by the Biodiversity Offsets Payment Calculator.	Pre-construction	Compliant - closed out	NSW Biodiversity Conservation Trust confirmation dated 29/10/19 re Biodiversity Credit 1237 for Biodiversity credit retirement of 4 credits for SSD9344.	Evidence of payment to biodiversity conservation fund								
B29	Evidence of the retirement of credits or payment to the Biodiversity Conservation Fund in satisfaction of condition B29 must be provided to the Planning Secretary prior to carrying out development that will impact on biodiversity values. <table border="1" data-bbox="290 1060 1115 1297"> <thead> <tr> <th>Any PCT with the below TEC</th> <th>Number of Credits</th> <th>Containing hollow bearing trees</th> <th>In the below IBRA subregions</th> </tr> </thead> <tbody> <tr> <td>Blue Gum High Forest in the Sydney Basin Bioregion (including PCTs 1237)</td> <td>4</td> <td>Yes</td> <td>Cumberland, Burragorang, Pittwater, Sydney Cataract, Wollemi and Yengo. B30	Prior to the commencement of the removal of any waste material from the site, the Applicant must notify the TfNSW(RMS) Traffic Management Centre of the truck route(s) to be followed by trucks transporting waste material from the site.	Pre-construction	Compliant - closed out	DUMP IT BINS to Kent Road Public School, Your Roads and Maritime Services reference: 00915013. Phone call on 20/10/19 and e-mails sent 20/09/19, 5/11/10 and 11/11/19 regarding proposed truck routes.	Correspondence with TfNSW regarding notification of truck routes for waste transport from site								
B31	Prior to the commencement of construction (excluding earthworks), the Applicant must obtain agreement from Council for the design of the operational waste storage area where waste removal is undertaken by Council.	Pre-construction	Compliant - closed out	Letter from School Infrastructure NSW dated 11/11/19 to certifier confirming DET has entered into a private waste contract for the removal of all operational waste from Kent Raod Public School. PCA approval received 12/11/19.	Approval from Council for the design of the operational waste storage area where waste removal undertaken by Council								
B32	Prior to the commencement of any footpath or public domain works, the Applicant must consult with Council and demonstrate to the Certifying Authority that the streetscape design and treatment meets the requirements of Council (including the City of Ryde Public Domain Technical Manual), including addressing pedestrian management. The Applicant must submit documentation of approval for each stage from Council to the Certifying Authority.	Throughout	Not triggered	Consultation and approvals to be sought prior to commencement of any footpath or public domain works	Correspondence and approval from Council and evidence of submission to Certifying Authority regarding streetscape design and treatment								
B33	No later than 48 hours before the date notified for the commencement of construction, a Compliance Monitoring and Reporting Program prepared in accordance with the Compliance Reporting Post Approval Requirements (Department 2018) must be submitted to the Department and the Certifying Authority.	Pre-construction	Compliant - closed out	Compliance Monitoring and Reporting program, prepared by Brendan Rice from EMM dated 25 October, Version 1 Final issued to DPIE on 30/10/19. Refer Section 3, Table 3.1, Pg.4.	Compliance Monitoring and Reporting Program								
B34	Compliance Reports of the project must be carried out in accordance with the Compliance Reporting Post Approval Requirements (Department 2018).	Throughout	To program.	Compliance Monitoring and Reporting program, prepared by Brendan Rice from EMM dated 25 October, Version 1 Final issued to DPIE on 30/10/19. Refer Section 1, Introduction Pg. 1. Pre-Construction Compliance Report dated 27/11/19.	Compliance Reports								
B35	The Applicant/Proponent must make each Compliance Report publicly available 60 days after submitting it to the Department and notify the Department and the Certifying Authority in writing at least seven days before this is done.	Throughout	Not triggered		Compliance Reports on School Infrastructure website								

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
B36	Notwithstanding the requirements of the Compliance Reporting Post Approval Requirements (Department 2018), the Planning Secretary may approve a request for ongoing annual operational compliance reports to be ceased, where it has been demonstrated to the Planning Secretary's satisfaction that an operational compliance report has demonstrated operational compliance	Throughout	Not triggered		Noted
C1	A copy of the approved and certified plans, specifications and documents incorporating conditions of approval and certification must be kept on the Site at all times and must be readily available for perusal by any officer of the Department, Council or the Certifying Authority.	Construction	Compliant - closed out	St Hilliers Proerty Pty Ltd have an electronic copy of the required documents available in their main site office at Kent Road Public School.	Noted
C2	A site notice(s): (a) must be prominently displayed at the boundaries of the site for the purposes of informing the public of project details including, but not limited to the details of the Builder, Certifying Authority and Structural Engineer. (b) is to satisfy all but not be limited to, the following requirements: (i) minimum dimensions of the notice must measure 841 mm x 594 mm (A1) with any text on the notice to be a minimum of 30-point type size; (ii) the notice is to be durable and weatherproof and is to be displayed throughout the works period; (iii) the approved hours of work, the name of the site/ project manager, the responsible managing company (if any), its address and 24-hour contact phone number for any inquiries, including construction/ noise complaint must be displayed on the site notice; and (iv) the notice(s) is to be mounted at eye level on the perimeter hoardings/fencing and is to state that unauthorised entry to the site is not permitted.	Construction	Not triggered		Site Notice
C3	All construction plant and equipment used on site must be maintained in a proper and efficient condition and operated in a proper and efficient manner.	Construction	Not triggered		Site Inspection
C4	Demolition work must comply with Australian Standard AS 2601-2001 The demolition of structures (Standards Australia, 2001).	Construction	Not triggered		Review of documentation
C5	Construction, including the delivery of materials to and from the site, may only be carried out between the following hours: (a) between 7:00am and 6:00pm, Mondays to Fridays inclusive; and (b) between 8:00am and 1:00pm, Saturdays. No work may be carried out on Sundays or public holidays.	Construction	Not triggered		Review of documentation
C6	Activities may be undertaken outside of the hours in condition C5 if required: (a) by the Police or a public authority for the delivery of vehicles, plant or materials; or (b) in an emergency to avoid the loss of life, damage to property or to prevent environmental harm; or (c) where the works are inaudible at the nearest sensitive receivers; or (d) where a variation is approved in advance in writing by the Planning Secretary or her nominee if appropriate justification is provided for the works.	Construction	Not triggered		Review of documentation
C7	Notification of such activities must be given to affected residents before undertaking the activities or as soon as is practical afterwards.	Construction	Not triggered		Review of documentation
C8	Rock breaking, rock hammering, sheet piling, pile driving and similar activities may only be carried out between the following hours: (a) 9:00am to 12:00pm, Monday to Friday; (b) 2:00pm to 5:00pm Monday to Friday; and (c) 9:00am to 12:00pm, Saturday.	Construction	Not triggered		Review of documentation
C9	The Applicant must carry out the construction of the development in accordance with the most recent version of the approved CEMP (including Sub-Plans).	Construction	Not triggered		Review of documentation/ site inspection
C10	All construction vehicles (excluding worker vehicles) are to be located in an approved on-street work zone, and vehicles must enter the site before stopping. All construction vehicles shall be managed in accordance with the recommendations of the Construction Worker Transportation Strategy.	Construction	Not triggered		Review of documentation/ site inspection
C11	Construction vehicles (including concrete agitator trucks) involved in construction and construction-related activities do not arrive at the project site or in surrounding residential precincts outside approved construction hours in condition C5.	Construction	Not triggered		Review of documentation
C12	A Road Occupancy Licence must be obtained from Transport Management Centre (TMC) for any works that may impact on traffic flows at the intersection of Herring Road & Epping Road and Land Cove Road & Kent Road during construction activities.	Construction	Not triggered		Review of documentation
C13	To protect the safety of work personnel and the public, the work site must be adequately secured to prevent access by unauthorised personnel, and work must be conducted at all times in accordance with relevant SafeWork requirements.	Construction	Not triggered		Review of documentation

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
C14	The following hoarding requirements must be complied with: (a) no third-party advertising is permitted to be displayed on the subject hoarding/ fencing; (b) the construction site manager must be responsible for the removal of all graffiti from any construction hoardings or the like within the construction area within 48 hours of its application; and (c) the Applicant must submit a hoarding application to Council for the installation of any hoardings over Council footways or road reserve.	Construction	Not triggered		Review of documentation
C15	The public way (outside of any approved construction works zone) must not be obstructed by any materials, vehicles, refuse, skips or the like, under any circumstances.	Construction	Not triggered		Review of documentation
C16	The development must be constructed to achieve the construction noise management levels detailed in the Interim Construction Noise Guideline (DECC, 2009). All feasible and reasonable noise mitigation measures must be implemented and any activities that could exceed the construction noise management levels must be identified and managed in accordance with the management and mitigation measures identified in the approved Construction Noise and Vibration Management Plan.	Construction	Not triggered		Review of documentation/ site inspection
C17	The Applicant must implement, where practicable and without compromising the safety of construction staff or members of the public, the use audible movement alarms of a type that would minimise noise impacts on surrounding noise sensitive receivers.	Construction	Not triggered		Site Inspection
C18	Any noise generated during construction of the development must not be offensive noise within the meaning of the Protection of the Environment Operations Act 1997 or exceed approved noise limits for the site.	Construction	Not triggered		Review of documentation
C19	Vibration caused by construction at any residence or structure outside the site must be limited to: (a) for structural damage, the latest version of DIN 4150-3 (1992-02) Structural vibration - Effects of vibration on structures (German Institute for Standardisation, 1999); and (b) for human exposure, the acceptable vibration values set out in the Environmental Noise Management Assessing Vibration: a technical guideline (DEC, 2006) (as may be updated or replaced from time to time).	Construction	Not triggered		Review of documentation
C20	Vibratory compactors must not be used closer than 30 metres from residential buildings unless vibration monitoring confirms compliance with the vibration criteria specified in condition C19.	Construction	Not triggered		Site Inspection
C21	The limits in conditions C19 and C20 apply unless otherwise outlined in a Construction Noise and Vibration Management Plan, approved as part of the CEMP required by condition B19 of this consent.	Construction	Not triggered		Review of documentation
C22	For the duration of the construction works: (a) street trees must not be trimmed or removed unless it forms a part of this development consent or prior written approval from Council is obtained or is required in an emergency to avoid the loss of life or damage to property; (b) all street trees must be protected at all times during construction. Any tree on the footpath, which is damaged or removed during construction due to an emergency, must be replaced, to the satisfaction of Council; (c) all trees on the site that are not approved for removal must be suitably protected during construction as per recommendations of the Arboricultural Impact Assessment dated 1 October 2018; (d) trees 134 and 165 are to be aurally inspected by an ecologist prior to their removal. This inspection should investigate the presence of faunal habitats within their canopy and hollowed stems. All fauna within these trees should be safely captured and/or dispersed prior to their removal. Once evacuated, all hollows should be covered to ensure they are not reoccupied prior to the trees' removal; (e) the northern edge of the new sports court must not be located closer than 5.5 metres from the stem of tree 169 and no closer than 3.5 metres from the stem of tree 163. (f) the group exclusion zone is to be extended in the western direction towards tree 45. Additional signage must be added stating that 'No construction activity is permitted beyond this point. No construction activity of any kind must take place on the southern side of this fence'; (g) the high retention value trees within the southern portion of the school must be protected and retained; and (h) if access to the area within any protective barrier is required during the works, it must be carried out under the supervision of a qualified arborist. Alternative tree protection measures must be installed, as required. The removal of tree protection measures, following completion of the works, must be carried out under the supervision of a qualified arborist and must avoid both direct mechanical injury to the structure of the tree	Construction	Not triggered		Review of documentation

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
C23	For the duration of construction works: (a) pre-clearance survey of trees to be removed and identification/location of habitat trees by a suitably qualified ecologist. Supervision by a qualified ecologist/licensed wildlife handler during tree removal in accordance with best practice methods to ensure relocation of fauna in a sensitive manner; (b) timing of construction works should be planned to occur outside of the spring breeding season for microbat species and nesting birds. Where possible, clearing works should be avoided in late winter/spring during breeding/nesting period for birds; (c) any trees removed that have hollows/hollow trunks or fissures should be retained as ground fauna habitat and/or used as replacement hollows and attached to trees within the development area. If re-use of the salvaged hollows is impractical, compensatory nest boxes should be installed within vegetation to be retained; (d) vehicles, machinery and building refuse should remain only within the development footprint and not impinge on the areas of retained native vegetation; (e) a weed management plan must be prepared and implemented; (f) all staff working on the development are to undertake an environmental induction as part of their site familiarisation. This induction will include items such as Importance of No Go Zones in the area identified on the Biodiversity Values map/high retention value trees within the southern portion of the school that comprises the Blue Gum High Forest critically endangered Ecological community; and (g) landscaping in the development site is to use locality derived native species and those found within the Plant Community Types (PCTs) present. The replacement planting must be locally occurring Blue Gum High Forest, Turpentine-Ironbark Forest and Shale- Sandstone Transitional Forest species.	Construction	Not triggered		Review of documentation
C24	Installation of nest boxes are required, specifically targeting threatened hollow-dependent microbats recorded in the region. The number, locations and installation of nest boxes must be undertaken by a qualified ecologist and/or arborist in order to mitigate the loss of any hollow bearing trees from the area.	Construction	Not triggered		Site Inspection
C25	The Applicant must take all reasonable steps to minimise dust generated during all works authorised by this consent.	Construction	Not triggered		Site Inspection
C26	During construction, the Applicant must ensure that: (a) exposed surfaces and stockpiles are suppressed by regular watering; (b) all trucks entering or leaving the site with loads have their loads covered; (c) trucks associated with the development do not track dirt onto the public road network; (d) public roads used by these trucks are kept clean; and (e) land stabilisation works are carried out progressively on site to minimise exposed surfaces.	Construction	Not triggered		Site Inspection
C27	The Applicant must install and operate equipment in line with best practice.	Construction	Not triggered		Review of documentation
C28	All erosion and sediment control measures, must be effectively implemented and maintained at or above design capacity for the duration of the construction works and until such time as all ground disturbed by the works have been stabilised and rehabilitated so that it no longer acts as a source of sediment.	Construction	Not triggered		Review of documentation/ site inspections
C29	The Applicant must: (a) ensure that only VENM, ENM, or other material approved in writing by EPA is brought onto the site; (b) keep accurate records of the volume and type of fill to be used; and (c) make these records available to the Department and Certifying Authority upon request.	Construction	Not triggered		Review of documentation
C30	Adequate provisions must be made to collect and discharge stormwater drainage during construction of the building to the satisfaction of the principal certifying authority. The prior written approval of Council must be obtained to connect or discharge site stormwater to Council's stormwater drainage system or street gutter.	Construction	Not triggered		Review of documentation
C31	In the event that surface disturbance identifies a new Aboriginal object, all works must halt in the immediate area to prevent any further impacts to the object(s). A suitably qualified archaeologist and the registered Aboriginal representatives must be contacted to determine the significance of the objects. The site is to be registered in the Aboriginal Heritage Information Management System (AHIMS) which is managed by EESG and the management outcome for the site included in the information provided to AHIMS. The Applicant must consult with the Aboriginal community representatives, the archaeologists and EESG to develop and implement management strategies for all objects/sites. Works shall only recommence with the written approval of EESG.	Construction	Not triggered		Review of documentation
C32	If any unexpected archaeological relics are uncovered during the work, then all works must cease immediately in that area and the Heritage Division contacted. Depending on the possible significance of the relics, an archaeological assessment and management strategy may be required before further works can continue in that area. Works may only recommence with the written approval of the Heritage Division.	Construction	Not triggered		Review of documentation
C33	All waste generated during construction must be secured and maintained within designated waste storage areas at all times and must not leave the site onto neighbouring public or private properties.	Construction	Not triggered		Review of documentation/ site inspections

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
C34	All waste generated during construction must be assessed, classified and managed in accordance with the Waste Classification Guidelines Part 1: Classifying Waste (EPA, 2014).	Construction	Not triggered		Review of documentation
C35	The body of any vehicle or trailer used to transport waste or excavation spoil must be covered before leaving the premises to prevent any spillage or escape of any dust, waste of spoil. Mud, splatter, dust and other material likely to fall from or be cast off the wheels, underside or body of any vehicle, trailer or motorised plant leaving the site must be removed before leaving the premises.	Construction	Not triggered		Review of documentation
C36	The Applicant must ensure that concrete waste and rinse water are not disposed of on the site and are prevented from entering any natural or artificial watercourse.	Construction	Not triggered		Review of documentation
C37	The Applicant is to consult with SafeWork NSW concerning the handling of any asbestos waste that may be encountered during construction. The requirements of the Protection of the Environment Operations (Waste) Regulation 2014 with particular reference to Part 7 – 'Transportation and management of asbestos waste' must also be complied with.	Construction	Not triggered		Review of documentation
C38	The Applicant must consult with the community regularly throughout construction, including consultation with the nearby sensitive receivers identified in State Significant Development Application (SSDA) – Acoustic Report dated 7 November 2018, relevant regulatory authorities, Registered Aboriginal Parties and other interested stakeholders.	Construction	Not triggered		Review of documentation
C39	Proposed independent auditors must be agreed to in writing by the Planning Secretary prior to the preparation of an Independent Audit Program or commencement of an Independent Audit.	Pre-construction	Compliant - closed out	DPIE approval letter dated 3/10/19 accepted Ms Shireen Baguley of Molino Stewart as Independent Environmental Auditor for Kent Road Public School SSD 9344.	DPIE approval of Independent Environmental Auditor.
C40	Prior to the commencement of construction, an Independent Audit Program prepared in accordance with the Independent Audit Post Approval Requirements (Department 2018) must be submitted to the Department and the Certifying Authority	Pre-construction	Compliant - closed out	Kent Road Public School Independent Audit Program, dated 12 November 2019, Table 1 Pg. 2 and Pg. 3. submitted by School Infrastructure NSW to DPIE by e-mail on 13/11/19 and to PCA on 28/11/19.	Independent Audit Program submission.
C41	Table 1 of the Independent Audit Post Approval Requirements (Department 2018) is amended so that the frequency of audits required in the construction phase is: (a) An initial construction Independent Audit must be undertaken within eight weeks of the notified commencement date of construction; and (b) A subsequent Independent Audit of construction must be undertaken no later than six months from the date of the initial construction Independent Audit. In all other respects Table 1 remains the same. The Planning Secretary may require the initial and subsequent Independent	Construction	Not triggered		Review of documentation
C42	Independent Audits of the development must be carried out in accordance with: (a) the Independent Audit Program submitted to the Department and the Certifying Authority under condition C40 of this consent; and (b) the requirements for an Independent Audit Methodology and Independent Audit Report in the Independent Audit Post Approval Requirements (Department 2018).	Construction	Not triggered		Review of documentation
C43	In accordance with the specific requirements in the Independent Audit Post Approval Requirements (Department 2018), the Applicant/Proponent must: (a) review and respond to each Independent Audit Report prepared under condition C39 of this consent; (b) submit the response to the Department and the Certifying Authority; and (c) make each Independent Audit Report and response to it publicly available within 60 days after submission to the Department and notify the	Pre-construction	Not triggered		Review of documentation
C44	Notwithstanding the requirements of the Independent Audit Post Approval Requirements (Department 2018), the Planning Secretary may approve a request for ongoing annual operational audits to be ceased, where it has been demonstrated to the Planning Secretary's satisfaction that an audit has demonstrated operational compliance.	Construction	Not triggered		Noted
C45	The Department must be notified in writing to compliance@planning.nsw.gov.au immediately after the Applicant becomes aware of an incident. The notification must identify the development (including the development application number and the name of the development if it has one), and set out the location and nature of the incident.	Construction	Not triggered		Noted
C46	Subsequent notification must be given and reports submitted in accordance with the requirements set out in Appendix 1.	Construction	Not triggered		Noted
C47	The Department must be notified in writing to compliance@planning.nsw.gov.au within seven days after the Applicant becomes aware of any non-compliance. The Certifying Authority must also notify the Department in writing to compliance@planning.nsw.gov.au within seven days after they identify any non-compliance.	Construction	Not triggered		Noted
C48	The notification must identify the development and the application number for it, set out the condition of consent that the development is non-compliant with, the way in which it does not comply and the reasons for the non-compliance (if known) and what actions have been, or will be, undertaken to address the non-compliance.	Construction	Not triggered		Noted
C49	A non-compliance which has been notified as an incident does not need to also be notified as a non-compliance.	Construction	Not triggered		Noted
C50	Within three months of: (a) the submission of a compliance report under condition B37; (b) the submission of an incident report under condition C45; (c) the submission of an Independent Audit under condition C39; (d) the approval of any modification of the conditions of this consent; or (e) the issue of a direction of the Planning Secretary under condition A3 which requires a review, the strategies, plans and programs required under this consent must be reviewed, and the Department and the Certifying Authority must be notified in writing that a review is being carried out.	Construction	Not triggered		Review of documentation

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
C51	If necessary to either improve the environmental performance of the development, cater for a modification or comply with a direction, the strategies, plans and programs required under this consent must be revised, to the satisfaction of the Planning Secretary and the Certifying Authority. Where revisions are required, the revised document must be submitted to the Planning Secretary and the Certifying Authority for approval within six weeks of the review. <i>Note: This is to ensure strategies, plans and programs are updated on a regular basis and to incorporate any recommended measures to improve the environmental performance of the development.</i>	Construction	Not triggered		Review of documentation if required
C52	Within three months of commencement of construction, evidence must be submitted to the satisfaction of the Certifying Authority that all outdoor lighting within the site has been designed to comply with AS 1158.3.1:2005 Lighting for roads and public spaces – Pedestrian area (Category P) lighting – Performance and design requirements, AS 1158.4:2015 – Lighting for roads and public spaces – Lighting of pedestrian crossings and AS 4282-1997 Control of the obtrusive effects of outdoor lighting.	Construction	Not triggered		Review of documentation
C53	Within three months of commencement of construction, the Applicant must submit amended plans to the satisfaction of the Principal Certifying Authority detailing the provision of at least an additional 29 locally indigenous mature shade providing canopy trees on the site.	Construction	Not triggered		Review of documentation
D1	At least one month before commencement of operation, the date of commencement of the operation of the development must be notified to the Planning Secretary in writing. If the operation of the development is to be staged, the Planning Secretary must be notified in writing at least one month before the commencement of each stage, of the date of commencement and the development to be carried out in that stage.	Pre-operation	Not triggered		Review of documentation
D2	Prior to the commencement of operation, the Applicant must provide the Certifying Authority with documented evidence that the products and systems used in the construction of external walls including finishes and claddings such as synthetic or aluminium composite panels comply with the requirements of the BCA.	Pre-operation	Not triggered		Review of documentation
D3	The Applicant must provide a copy of the documentation given to the Certifying Authority to the Planning Secretary within seven days after the Certifying Authority accepts it.	Pre-operation	Not triggered		Review of documentation
D4	Prior to the commencement of operation, the Applicant must engage a suitably qualified person to prepare a post-construction dilapidation report at the completion of construction. This report is: a) to ascertain whether the construction created any structural damage to adjoining buildings or infrastructure. b) to be submitted to the Certifying Authority. In ascertaining whether adverse structural damage has occurred to adjoining buildings or infrastructure, the Certifying Authority must: i) compare the post-construction dilapidation report with the pre-construction dilapidation report required by these conditions; and ii) have written confirmation from the relevant authority that there is no adverse structural damage to their infrastructure and roads. c) to be forwarded to Council.	Pre-operation	Not triggered		Review of documentation
D5	Unless the Applicant and the applicable authority agree otherwise, the Applicant must: (a) repair, or pay the full costs associated with repairing, any public infrastructure that is damaged by carrying out the development; and (b) relocate, or pay the full costs associated with relocating any infrastructure that needs to be relocated as a result of the development. <i>Note: This condition does not apply to any damage to roads caused as a result of general road usage or otherwise addressed by contributions required by this consent.</i>	Pre-operation	Not triggered		Noted
D6	Unless the Applicant and the applicable owner agree otherwise, the Applicant must repair, or pay the full costs associated with repairing any property that is damaged by carrying out the development.	Pre-operation	Not triggered		Noted
D7	Prior to the commencement of operation, the Applicant must obtain a Compliance Certificate for water and sewerage infrastructure servicing of the site under section 73 of the Sydney Water Act 1994.	Pre-operation	Not triggered		Review of documentation
D8	Prior to the commencement of operation, works-as-executed drawings signed by a registered surveyor demonstrating that the stormwater drainage and finished ground levels have been constructed as approved, must be submitted to the Certifying Authority.	Pre-operation	Not triggered		Review of documentation
D9	Prior to the commencement of operation, a Green Travel Plan (GTP), must be submitted to the satisfaction of the Planning Secretary to promote the use of active and sustainable transport modes. The plan must: (a) be prepared by a suitably qualified traffic consultant in consultation with City of Ryde Council and Sydney Coordination Office) Transport for NSW; (b) include objectives and modes share targets (i.e. Site and land use specific, measurable and achievable and timeframes for implementation) to define the direction and purpose of the GTP; (c) include specific tools and actions to help achieve the objectives and mode share targets; (d) include measures to promote and support the implementation of the plan, including financial and human resource requirements, roles and responsibilities for relevant employees involved in the implementation of the GTP; and (e) include details regarding the methodology and monitoring/review program to measure the effectiveness of the objectives and mode share targets of the GTP, including the frequency of monitoring and the requirement for travel surveys to identify travel behaviours of uses of the development.	Pre-operation	Not triggered		Review of documentation
D10	Prior to the commencement of operation, an OTAMP is to be prepared by a suitably qualified person, in consultation with Council, Transport for NSW and TfNSW(RMS) and a copy submitted to the Planning Secretary. The OTAMP must address the following: (a) detailed pedestrian analysis including the identification of safe route options – to identify the need for management measures such as staggered school start and finish times to ensure students and staff are able to access and leave the Site in a safe and efficient manner during school start and finish; (b) the location of all car parking spaces on the school campuses and their allocation (i.e. staff, visitor, accessible, emergency, etc.); (c) the location and operational management procedures of the pick-up and drop-off parking located within Kent and Herring Roads, including staff management/traffic controller arrangements; (d) the location and operational management procedures for the pick-up and drop-off of students by buses and coaches for excursions and sporting activities during the hours of bus lane operations along Kent and Herring Roads, including staff management/traffic controller arrangements; (e) delivery and services vehicle and bus access and management arrangements; (f) management of approved access arrangements; (g) potential traffic impacts on surrounding road networks and mitigation measures to minimise impacts, including measures to mitigate queuing impacts associated with vehicles accessing pick-up and drop-off parking on Kent and Herring Roads; (h) car parking arrangements and management associated with the proposed use of school facilities by community members; and (i) a monitoring and review program.	Pre-operation	Not triggered		Review of documentation
D11	Prior to commencement of final operation, the Applicant must provide evidence to the satisfaction of the Certifying Authority that the installation and performance of the mechanical ventilation systems complies with: (a) AS 1668.2-2012 The use of air-conditioning in buildings – Mechanical ventilation in buildings and other relevant codes; and (b) any dispensation granted by Fire and Rescue NSW.	Pre-operation	Not triggered		Review of documentation

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
D12	Prior to the commencement of operation, the Applicant must submit evidence to the Certifying Authority that the noise mitigation recommendations in the State Significant Development Application (SSDA) – Acoustic Report dated 7 November 2018 and all reasonable and feasible noise mitigation measures have been incorporated into the design to ensure the development will not exceed the recommended operational noise levels identified in the Environmental Noise Assessment.	Pre-operation	Not triggered		Review of documentation
D13	Prior to the commencement of operation, evidence must be submitted to the Planning Secretary that demonstrates that works associated with the reconfiguration of existing car park to create 32 additional car parking spaces have been completed, in accordance with AS2890.1.	Pre-operation	Not triggered		Review of documentation
D14	Prior to the commencement of operation, the cost of repairing any damage caused to Council or other Public Authority's assets in the vicinity of the Subject Site as a result of construction works associated with the approved development is to be met in full by the Applicant.	Pre-operation	Not triggered		Review of documentation
D15	Prior to the commencement of occupation, a Fire Safety Certificate must be obtained for all the Essential Fire or Other Safety Measures forming part of this consent. A copy of the Fire Safety Certificate must be submitted to the relevant authority and Council. The Fire Safety Certificate must be prominently displayed in the building.	Pre-operation	Not triggered		Review of documentation
D16	Prior to the commencement of occupation of the relevant parts of any new or refurbished buildings, a Structural Inspection Certificate or a Compliance Certificate must be submitted to the satisfaction of the Certifying Authority prior to the occupation of the relevant parts of any new or refurbished buildings. A copy of the Certificate with an electronic set of final drawings (contact approval authority for specific electronic format) must be submitted to the approval authority and the Council after: (a) the site has been periodically inspected and the Certifying Authority is satisfied that the structural works is deemed to comply with the final design drawings; and (b) the drawings listed on the Inspection Certificate have been checked with those listed on the final Design Certificate/s.	Pre-operation	Not triggered		Review of documentation
D17	Prior to the commencement of operation, the Applicant is to obtain a certificate from a suitably qualified tradesperson, certifying that the kitchen, food storage and food preparation areas have been fitted in accordance with the AS 4674 Design, construction and fit-out of food premises and provide evidence of receipt of the certificate to the satisfaction of the Certifying Authority.	Pre-operation	Not triggered		Review of documentation
D18	Prior to the commencement of operation, an Operation and Maintenance Plan (OMP) is to be submitted to the satisfaction of the Certifying Authority along with evidence of compliance with the OMP. The OMP must ensure the proposed stormwater quality measures remain effective and contain the following: (a) maintenance schedule of all stormwater quality treatment devices; (b) record and reporting details; (c) relevant contact information; and (d) Work Health and Safety requirements.	Pre-operation	Not triggered		Review of documentation
D19	Prior to the commencement of operation, a signed works-as-executed Rainwater Re-use Plan must be provided to the Certifying Authority prior to occupation of the building.	Pre-operation	Not triggered		Review of documentation
D20	The installation of warm water systems and water cooling systems (as defined under the Public Health Act 2010) must comply with the Public Health Act 2010, Public Health Regulation 2012 and Parts 1 of AS/NZS 3666.2:2011 Air handling and water systems of buildings – Microbial control – Operation and maintenance and the NSW Health Code of Practice for the Control of Legionnaires' Disease.	Pre-operation	Not triggered		Review of documentation
D21	Prior to the commencement of operation, the Applicant must submit evidence from a suitably qualified practitioner to the Certifying Authority that demonstrates that installed lighting associated with the development complies with AS 1158 Lighting for roads and public spaces and achieves the objective of minimising light spillage to any adjoining or adjacent sensitive receivers and: (a) complies with the latest version of AS 4282-2019 - Control of the obtrusive effects of outdoor lighting (Standards Australia, 1997); and (b) has been mounted, screened and directed in such a manner that it does not create a nuisance to surrounding properties or the public road network.	Pre-operation	Not triggered		Review of documentation
D22	Prior to the commencement of operation, way-finding signage and signage identifying the location of staff car parking must be installed prior to occupation.	Pre-operation	Not triggered		Site Inspection
D23	Prior to the commencement of operation, bicycle way-finding signage must be installed within the site to direct cyclists from footpaths to designated bicycle parking areas prior to occupation.	Pre-operation	Not triggered		Site Inspection
D24	Prior to the commencement of operation, 'Do not drink' signage on non-potable water used for toilet flushing and to new hose taps and irrigation systems for landscaped areas must be installed within the site prior to occupation.	Pre-operation	Not triggered		Site Inspection
D25	Prior to the commencement of operation, the Applicant must prepare a Waste Management Plan for the development and submit it to the Certifying Authority. The Waste Management Plan must: (a) detail the type and quantity of waste to be generated during operation of the development; (b) describe the handling, storage and disposal of all waste streams generated on site, consistent with the Protection of the Environment Operations Act 1997, Protection of the Environment Operations (Waste) Regulation 2014 and the Waste Classification Guideline (Department of Environment, Climate Change and Water, 2009); (c) detail the materials to be reused or recycled, either on or off site; and (d) include the Management and Mitigation Measures included in the EIS.	Pre-operation	Not triggered		Review of documentation
D26	Should remediation works be required under Condition B8, the Applicant must prepare a Validation Report for the development. The Validation Report must: (a) be prepared by an appropriately qualified environmental consultant and reviewed by an EPA accredited Site Auditor; (b) be submitted to EPA, the Planning Secretary and the Certifying Authority for information one month after the completion of remediation works; (c) be prepared in accordance with the RAP and the Contaminated Sites: Guidelines for Consultants Reporting on Contaminated Sites (OEHS, 2011); (d) include, but not be limited to: (i) comment on the extent and nature of the remediation undertaken; (ii) describe the location, nature and extent of any remaining contamination on site; (iii) sampling and analysis plan and sampling methodology; (iv) results of sampling of treated material, compared with the treatment criteria in the Remediation Action Plan (RAP) and Validation Sampling and Analysis Quality Plan submitted to the EPA Accredited Certifier in Accordance with Condition B8; (v) results of any validation sampling, compared to relevant guidelines/criteria; (vi) discussion of the suitability the remediated areas for the intended land use; and (vii) any other requirement relevant to the project.	Construction	Not triggered		Review of documentation
D27	Should remediation works be required under Condition B8, the Applicant must obtain from an EPA accredited Site Auditor, a Site Audit Statement and a Site Audit Report which demonstrates that the site is suitable for its intended use(s).	Construction	Not triggered		Review of documentation

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
D28	Should remediation works be required under Condition B8, the Applicant must demonstrate to the satisfaction of the Certifying Authority that the Site Auditor has submitted a Site Audit Report and Site Audit Statement to EPA in accordance with the requirements of EPA's Guidelines for the NSW Site Auditor Scheme (3rd Edition) 2017 within two months of the submission of the Validation Report required by Condition D26.	Construction	Not triggered		Review of documentation
D29	Prior to occupation of the building, the Applicant must prepare a Landscape Management Plan to manage the revegetation and landscaping works on-site, to the satisfaction of the Certifying Authority. The plan must: (a) detail the species to be planted on-site; (b) describe the monitoring and maintenance measures to manage revegetation and landscaping works; (c) be consistent with the Applicant's Management and Mitigation Measures at EIS.	Pre-operation	Not triggered		Review of documentation
D30	The Applicant must not commence operation until the Landscape Management Plan is submitted to the Certifying Authority.	Pre-operation	Not triggered		Review of documentation
D31	Prior to the commencement of operation, a traffic and parking management plan must be prepared which details the measure to safely manage the daily transport task to/from the school. Traffic and parking management measures that need to be addressed include: (a) kerbside vehicle pick-up/drop-off management, staff parking management and orderly vehicle queuing; (b) maintaining bus accessibility and student waiting areas; (c) safe parent and student behaviour during pick-up/drop-off; and (d) safe pedestrian movements to the school entrances, minimizing vehicle-pedestrian conflicts.	Pre-operation	Not triggered		Review of documentation
D32	The plan shall also detail the responsibilities of various personnel executing the plan and include measures to monitor, review the performance and make improvements to the plan. This plan should be implemented as part of the ongoing operation of the redeveloped school.	Pre-operation	Not triggered		Review of documentation
D33	Prior to the commencement of operation, the Applicant shall prepare a detailed signage and line-marking plan of the proposed changes to the existing vehicle entry and pick-up/drop-off arrangements along Kent Road. The preparation of the plan should be made in consultation with City of Ryde Council and approved by the Ryde Traffic Committee. The approved changes must be implemented to the satisfaction of Council.	Pre-operation	Not triggered		Review of documentation
D34	Sufficient bus zone lengths are to be provided to accommodate school bus services and for school charter services.	Pre-operation	Not triggered		Review of documentation
D35	Prior to the commencement of operation, a Road Safety Audit (RSA), refer to Austroads Guide to Road Safety Part 6 and Part 6a, must be conducted for all the proposed measures including any traffic management facilities, bus and private vehicle pick-up and drop-off arrangements, and signage and line-marking plan.	Pre-operation	Not triggered		Review of documentation
D36	The findings of the RSA must to be incorporated into the proposed measures mentioned above in consultation with Council and a copy submitted to the Planning Secretary and Certifying Authority. Note: The audit needs to be undertaken by an independent TfNSW accredited auditor.	Pre-operation	Not triggered		Review of documentation
D37	Prior to the commencement of operation, the New Vehicular access shall be constructed in accordance with all relevant Australian Codes and Standards, and any Council requirements or approved drawings. The works shall include the removal of the existing layback (gutter crossing) and replacement with kerb and gutter and restoration of the adjacent road pavement.	Pre-operation	Not triggered		Review of documentation
D38	The vehicular access ramps shall be designed and constructed to provide adequate ground clearance and no scraping to the underside of a standard "B85" vehicle. In all respects, the proposed vehicle access and/or parking spaces shall be designed and constructed to comply with the minimum requirements of AS/NZS 2890.1 "Off-Street car parking" and Council's standards.	Construction	Not triggered		As built certification
D39	Any adjustment or relocation of underground utilities as a result of the driveway construction must be carried out in accordance with the requirements of the utility Authority. Minimum cover requirements of utility authorities must be maintained.	Pre-operation	Not triggered		Review of documentation
D40	Prior to the commencement of operation, compliance with the following requirements for secure bicycle parking and end-of-trip facilities must be submitted to the satisfaction of the Certifying Authority: (a) the provision of a minimum 44 bicycle parking spaces; (b) the layout, design and security of bicycle facilities must comply with the minimum requirements of AS 2890.3:2015 Parking facilities - Bicycle parking, and be located in easy to access, well-lit areas that incorporate passive surveillance; (c) the provision of end-of-trip facilities for staff in accordance with the ESD Design & As Built rating tool; (d) appropriate pedestrian and cyclist advisory signs are to be provided; and (e) all works/regulatory signposting associated with the proposed developments shall be at no cost to the relevant roads authority.	Pre-operation	Not triggered		Review of documentation
E1	Prior to the commencement of the first out of hours events (school use) run by the school that involve 100 or more people, the Applicant is to prepare an Out of Hours Event Management Plan (School Use) and submit it to the Council and Planning Secretary in consultation with Council. The plan must include the following: (a) the number of attendees, time and duration; (b) arrival and departure times and modes of transport; (c) where relevant, a schedule of all annual events; (d) demonstrate measures to encourage non-vehicular travel to the school and promote and support the use of alternate travel modes (i.e. public transport); (e) details of the use of the outdoor sports courts, where applicable, restricting use before 8am and after 10pm; (f) measures to minimise localised traffic and parking impacts; and (g) include measures to minimise noise impacts on any sensitive residential receivers, including the preparation of acoustic management plan.	Post Occupation	Not triggered		Review of documentation
E2	The Out of Hours Event Management Plan must be implemented by the Applicant for the duration of the identified events or use.	Post Occupation	Not triggered		Review of documentation
E3	Prior to the commencement of out of hours events (community use) run by the external parties that involve 100 or more people, the Applicant is to prepare an Out of Hours Event Management Plan (Community Use) in consultation with Council and submit it to the Council and Planning Secretary. The plan must include the following: (a) the number of attendees, time and duration; (b) arrival and departure times and modes of transport; (c) where relevant, a schedule of all annual events; (d) demonstrate measures to encourage non-vehicular travel to the school and promote and support the use of alternate travel modes (i.e. public transport); (e) details of the use of the outdoor sports courts, where applicable, restricting use before 8am and after 10pm; (f) measures to minimise localised traffic and parking impacts; and (g) include measures to minimise noise impacts on any sensitive residential receivers, including the preparation of acoustic management plan.	Post Occupation	Not triggered		Review of documentation
E4	The Out of Hours Event Management Plan must be implemented by the Applicant for the duration of the identified community event or use.	Post Occupation	Not triggered		Review of documentation
E5	The community use of outdoor sports courts must not be available for community use: (a) before 7.00am or after 7.00pm, weekdays; (b) between the hours of 8.00am and 6.00pm on Saturdays; and (c) on Sundays or public holidays.	Post Occupation	Not triggered		Review of documentation

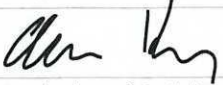

Appendix A Compliance Table

Condition Reference	Condition Requirement	Phase	Compliance Status	Evidence Provided	Document Required
E6	All plant and equipment used on site must be maintained in a proper and efficient condition and operated in a proper and efficient manner.	Post Occupation	Not triggered		Review of documentation
E7	The operation and maintenance of warm water systems and water cooling systems (as defined under the Public Health Act 2010, Public Health Regulation 2012 and Part 2 (or Part 3 if a Performance-based water cooling system) of AS/NZS 3666.2:2011 Air handling and water systems of buildings – Microbial control – Operation and maintenance and the NSW Health Code of Practice for the Control of Legionnaires' Disease.	Post Occupation	Not triggered		Review of documentation
E8	The Community Communication Strategy, as approved by the Planning Secretary, must be implemented for a minimum of 12 months following the completion of construction.	Post Occupation	Not triggered		Review of documentation
E9	The Applicant must ensure that noise generated by operation of the development does not exceed the noise limits in State Significant Development Application (SSDA) – Acoustic Report dated 7 November 2018.	Post Occupation	Not triggered		Review of documentation
E10	The Applicant must undertake short term noise monitoring in accordance with the Noise Policy for Industry where valid data is collected following the commencement of use of each stage of the development. The monitoring program must be carried out by an appropriately qualified person and a monitoring report must be submitted to the Planning Secretary within two months of commencement use of each stage of the development to verify that operational noise levels do not exceed the recommended noise levels for mechanical plant identified in State Significant Development Application (SSDA) – Acoustic Report and dated 7 November 2018. Should the noise monitoring program identify any exceedance of the recommended noise levels referred to above, the Applicant is required to implement appropriate noise attenuation measures so that operational noise levels do not exceed the recommended noise levels or provide attenuation measures at the affected noise sensitive receivers.	Post Occupation	Not triggered		Review of documentation
E11	All driveways, footways and parking areas must be unobstructed at all times. Driveways, footways and car spaces must not be used for the manufacture, storage or display of goods, materials, refuse, skips or any other equipment and must be used solely for vehicular and/or pedestrian access and for the parking of vehicles associated with the use of the premises.	Post Occupation	Not triggered		Review of documentation/ Site Inspections
E12	The Green Travel Plan required by condition D9 of this consent must be updated annually and implemented.	Post Occupation	Not triggered		Review of documentation
E13	Unless otherwise agreed by the Planning Secretary, within six months of commencement of operation, Green Star certification must be obtained demonstrating the development achieves a minimum 4 star Green Star design and As Built rating. If required to be obtained, evidence of the certification must be provided to the Certifying Authority and the Planning Secretary.	Post Occupation	Not triggered		Review of documentation
E14	Notwithstanding Condition D21, should outdoor lighting result in any residual impacts on the amenity of surrounding sensitive receivers, the Applicant must provide mitigation measures in consultation with affected landowners to reduce the impacts to an acceptable level.	Post Occupation	Not triggered		Review of documentation
E15	The owner must submit to Council an Annual Fire Safety Statement, each 12 months after the final Safety Certificate is issued. The certificate must be on, or to the effect of, Council's Fire Safety Statement.	Post Occupation	Not triggered		Review of documentation
E16	The Applicant must maintain the landscaping and vegetation on the site in accordance with the approved Landscape Management Plan required by condition D29 for the duration of occupation of the development.	Post Occupation	Not triggered		Review of documentation

Appendix B

Compliance Report Declaration Form

Compliance Report Declaration Form

Project Name	Kent Road Public School Redevelopment
Application Number	SSD 9344
Description of Project	Description of Project: Upgrades to Kent Road Public School. The project will enable the school to accommodate more than 900 students in permanent facilities. The project will deliver: 34 new permanent future-focused teaching spaces & two special program spaces; administration and staff facilities; a new library; a new canteen; a new hall; a new outdoor play area; multipurpose sports court & more functional outdoor open play space.
Project Address	Kent Road, Marsfield NSW 2122
Proponent	NSW Department of Education
Title of Compliance Report	Kent Road Public School - Pre-Construction Compliance Report
Date	28 November 2019
<p>I declare that I have reviewed the attached Compliance Report and to the best of my knowledge:</p> <ul style="list-style-type: none"> • the Compliance Report has been prepared in accordance with all relevant conditions of consent; • the Compliance Report has been prepared in accordance with the Compliance Reporting Post Approval Requirements; • the findings of the Compliance Report are reported truthfully, accurately and completely; • due diligence and professional judgement have been exercised in preparing the Compliance Report; and • the Compliance Report is an accurate summary of the compliance status of the development. <p>Notes:</p> <ul style="list-style-type: none"> • Under section 10.6 of the <i>Environmental Planning and Assessment Act 1979</i> a person must not include false or misleading information (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is false or misleading in a material respect. The proponent of an approved project must not fail to include information in (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is materially relevant to the monitoring or audit. The maximum penalty is, in the case of a corporation, \$1 million and for an individual, \$250,000; and • The Crimes Act 1900 contains other offences relating to false and misleading information: section 307B (giving false or misleading information – maximum penalty 2 years' imprisonment or 200 penalty units, or both).
