Works notification

Removal of asbestos containing material at Kent Road Public School

Tests have confirmed that some material found at the Kent Road Public School upgrade site contains bonded Asbestos (Asbestos that is not air borne).

Asbestos is managed by a licensed and accredited asbestos removalists and occupational hygienists in strict accordance with the Department of Education's Asbestos Management Plan and all applicable legislation, regulations, policies and guidelines.

Appropriate safety measures will be implemented prior to removal.

A remediation plan has been developed and removal of the asbestos containing material is planned to occur on Saturday 15 June 2019.

The health, safety and well-being of students, staff and neighbours is our highest priority. Air monitoring and site fencing will remain in place until further notice. The removal of asbestos containing material will not pose a risk to the local community.

Thank you for your cooperation during this important work.
