## Works notification

July 2020

### Removal of tower crane – Saturday, 25 July 2020

Dear neighbour

On Saturday 25 July the tower crane that has been used as part of the Kent Road Public School upgrade will be dismantled and removed from site.

This work will involve dismantling the tower crane within the construction site and then removing the crane in sections on heavy rigid trucks and trailers. You may notice some excess noise during these works, including the loading of trucks and vehicle movement on site. We will make every effort to minimise disruption to the community during this work.

Works will take place between 7am and 5pm. During this time additional traffic controls will be implemented to ensure the safety of pedestrians. It is expected that the works will have minimal impact on pedestrian and vehicle movements on surrounding streets.

All safety requirements and regulations will be followed to ensure the safe removal of the tower crane by licensed contractors.

If you have any questions about these works, please contact us using the details provided below.

We thank you for your cooperation during this important work. We will continue to provide updates to the school and local community.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across New South Wales. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.
