### What steps will be taken to control noise and dust impacts?

Hoarding and shade cloth have been erected to reduce noise and dust impacts on the school and our neighbours. Dust sensors are in place and dust from site works will be hosed down as required.

We will minimise noise by using atonal alarms and flashing lights on machinery, trucks on site will turn off engines when not in use, rubber matting will be placed over material handling areas to reduce sound impacts when materials are being delivered.

### How will traffic be managed?

Traffic control is in place to manage truck movements in and out of the site via the Kent Road access gates.

Heavy vehicles will be accessing and exit the site via Kent Road up to Herring Road and then down to Epping Road.

Traffic controllers will monitor truck movements and ensure safe and compliant access and exit procedures for trucks off Kent Road is maintained.
