

Kent Road Public School

Project update

September 2020

Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Kent Road Public School

A project is underway to upgrade Kent Road Public School to accommodate more than 900 students in permanent facilities. The redevelopment includes 34 new classrooms, special programs spaces, a new canteen and library, new outdoor play area and multipurpose sports court and administration facilities.

Progress summary

The concrete structure and the roof framing and sheeting is now complete for the two new homebase blocks and the new admin block. Internal construction is well progressed in the new homebase blocks and at Level 1 of the admin block.

Façade installation is also progressing well for the homebase blocks and scaffolding removal has started.

Installation of the onsite detention tank has also commenced.

Next steps

Over the next month we will continue work on the facades of the homebase and admin blocks.

Internal works, including services, partition and ceiling installation will continue for all buildings.

Installation of the onsite detention tank will also continue.

Keeping you updated

We will keep the local school community and residents informed as the project progresses.

Thank you for your patience as we deliver this important project for the community.
