Working with us

Our commitment to act in the best interests of our stakeholders and the local community is at the forefront of our work.

We know the decisions we make will have a direct impact on our students, parents and carers, our staff as well as local communities.

We will endeavour to keep the local school community and residents informed which will include, but not limited to, school and community flyers, information booths, and website updates.

Stay informed

Information booth

Information booths will continue to be held during the construction phase.

Killara High School

Information for parents, carers, students and staff

November 2018

Artist render of Killara High School

A project is underway for Killara High School. The project will deliver new permanent teaching spaces, specialist spaces, and upgrades to some of the school’s existing core facilities.

THE UPGRADE FOR KILLARA HIGH SCHOOL IS IN THE

Early Works

PHASE

KILLARA HIGH SCHOOL MAIN CONSTRUCTION WORKS TO BEGIN

EARLY 2019

COMPLETION OF THE UPGRADE EXPECTED

MID 2020

Killara High School Upgrade

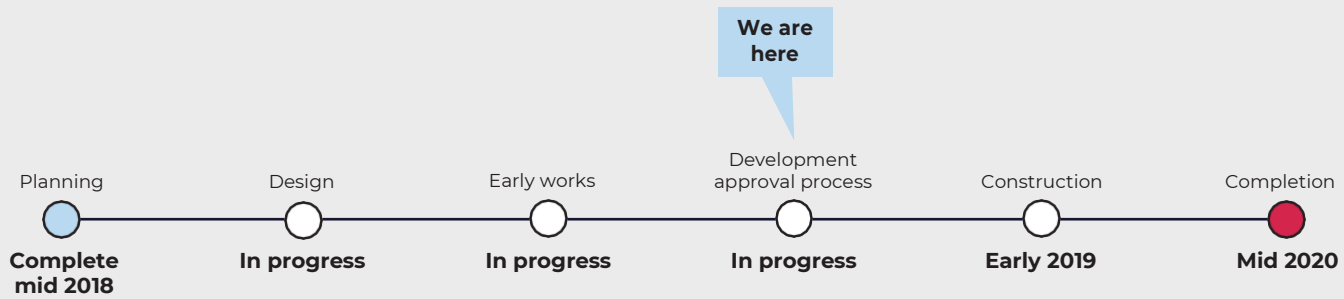

A project is underway at Killara High School. The project will provide 17 new permanent teaching spaces, as well as upgrades to some of the school's existing core facilities. To facilitate the project upgrade, site establishment and tree removal will be undertaken, followed by removal of the Cottage building. Site fencing has been installed at the site.

The schematic design is complete.

Next Steps

- Planning approval to be granted
- Early works will start in late 2018, with main works to commence in early 2019.

The NSW Government's 2018/19 Budget includes \$6 billion over four years to deliver more than 170 new and upgraded schools. A further \$160 million has also been invested as part of the record \$747 million maintenance investment announced last year. This is the largest investment in public education infrastructure in the history of NSW.

Frequently Asked Questions

When will work start and finish?

Early works have already commenced with the relocation of the demountable buildings. Construction of the new facilities is expected to start in early 2019 and is expected to be completed by mid 2020.

Who will be impacted by early works?

There will be minimal disruption to the school community during early planning works. A construction site will be established within the school grounds and safety fencing will be used to separate students from the construction area.

How will the entry/exit be managed during construction works?

The safety of our students, staff and visitors is of the highest priority. The site will have its own entrance for vehicle access, deliveries and workers.

How much progress will have been made by Day One Term One 2019?

We intend to have completed the early works by removing the trees and Cottage during the school holidays, in preparation for the main works. Construction of the new building will commence following the completion of these early works.

How will you manage traffic and noise during construction?

School Infrastructure NSW is working closely with the Principal and staff to minimise disruption to students and learning as much as possible. Noise and traffic impacts will be managed in accordance with the contract **and** in consultation with SINSW and the school, with an agreed disruption notice process to follow.

How can I find out what is happening as the project progresses?

School Infrastructure NSW will continue to work closely with the school community by sharing regular updates as the project progresses.
