

Killarney Heights Public School

Term 1 holiday works

April 2020

Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across New South Wales. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Killarney Heights Public School

An upgrade is underway at Killarney Heights Public School. The project will deliver seven new permanent teaching spaces and a special programs room.

Progress summary

The school upgrade remains on-track for completion by mid-2020.

Work continues on roofing, external cladding, services installation and internal fit-out.

Term 1 school holiday works

Over the holidays, work will include:

- preparation for the installation of the new electrical substation near the main entrance
- removal of the external scaffolding in stages
- electrical mains connection through the existing school site.

Due to the nature of our work, you may experience increased noise from machinery and other activities.

We will ensure that work is completed safely and efficiently, and disruptions are minimised.

Our contractors will ensure their teams comply with social distancing restrictions to ensure a safe workplace.

Thank you for your patience as we deliver this important project for the community.
