Kingscliff High School

Project update | December 2022

Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

Kingscliff High School is being upgraded to provide new permanent learning spaces and core facilities. The scope of work includes a new creative and performing arts building, a new library, a new senior learning environment, refurbished hospitality facilities and general learning spaces, and a new sports pavilion.

Update to project completion dates

In May 2022, we updated the community that the works to upgrade Kingscliff High School have been impacted by the floods in Northern NSW. While the school was not directly impacted by floodwaters, the flooding in Northern NSW had a considerable impact on our work in the region, reducing capacity and increasing demand in the construction industry.

Our contractor has now revised the program of works for the remainder of the upgrade. The updated anticipated completion dates for the buildings / project outlined on the following page.

Facility	Completion date
New library	Late 2022
COLA and Admin	Mid 2023
Building O - Creative and Performing Arts	Early 2024
Refurbished areas, carpark	Mid 2024
Official opening	Mid 2024

We are committed to working with the school community to ensure there is minimal disruption for the duration of these works.

Progress summary

The library façade and external glazing is complete and internal fit out is progressing. Work has progressed on the Covered Outdoor Learning Area (COLA). Community consultation to incorporate Aboriginal design into the project is progressing.

Covered Outdoor Learning Area (COLA)

Next steps

The program of works over the coming months will include completing internal fit out and external landscaping for the new library. Following completion of the new library, construction will commence to extend the administration building and refurbish the existing library to create a senior’s learning hub.

We thank the community for your ongoing understanding and patience while we deliver the Kingscliff High School upgrade.
