

# Kingscliff High School

Works notification | 15 February 2024

## Upgrade to on-site carpark

As part of the upgrade to the on-site carpark at Kingscliff High School we will be undertaking earthworks to level and compact the ground. Stage 1 of this work will commence on Monday 19 February, and continue intermittently for three (3) weeks, weather permitting. We will notify residents when stage 2 works are due to commence.

This work will require the use of vibrating rollers, which may affect nearby residents through vibration, noise and dust. [Our Construction Noise and Vibration Management Sub-Plan](#) sets out how we will manage these impacts. This plan can be found on our project webpage at: <https://www.schoolinfrastructure.nsw.gov.au/projects/k/kingscliff-high-school-upgrade.html#category-reports>

Adjoining residents have previously been offered a Pre-Construction Report for their property. This inspection and report provide us, and you, with an understanding of the condition of your property prior to construction and allows for a comparison post-construction to gauge the impact of the work on your property. Post-construction surveys will be carried out on these properties at the conclusion of the works. If you haven't had a Pre-Construction Report conducted and would like to have one prior to commencement of the earthworks, please call 1300 482 651 to request this.

## Construction working hours

Approved working hours are 7 am to 6 pm Monday to Friday, and 8 am to 1 pm on Saturdays. No work will take place on Sundays or public holidays, unless otherwise advised.

## Further information

For any queries about this project, you can contact School Infrastructure NSW during business hours on 1300 482 651 or via email at [schoolinfrastructure@det.nsw.gov.au](mailto:schoolinfrastructure@det.nsw.gov.au).
