Kingscliff High School

Project update | November 2021

Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

Kingscliff High School is being upgraded to provide new permanent teaching spaces and core facilities. The scope of work includes a new creative and performing arts building, new library, new senior learning environment, refurbished hospitality facilities and general learning spaces, and new sports pavilion.

Progress summary

School Infrastructure NSW has obtained the necessary planning consents to proceed with upgrades to Kingscliff High School. The Department of Planning, Industry and Environment (DPIE) has approved the State Significant Development application for the main works. The Conditions of Approval can be found on the DPIE major projects website: www.planningportal.nsw.gov.au/major-projects/project/39476

Next Steps

Main works construction will start soon following the satisfaction of the relevant SSDA Conditions. This will include: construction of the new creative and performing arts building, demolition of the administration building garden beds, demolition of internal walls in Block C, and works to Block A and the COLA.

We will keep the community updated with further details prior to construction starting.
