

# Kingscliff Public School

## Project update

18 March 2022

Kingscliff Public School is being upgraded to provide new permanent teaching spaces and core facilities to cater for enrolment growth in the area. The scope of work includes replacement of all classrooms, including demountable buildings, a new library, an extended hall and new canteen, new outdoor spaces and a redeveloped school entry.

As per our previous project update in February 2022, School Infrastructure NSW has obtained the necessary planning approval to proceed with the remainder of the upgrades to Kingscliff Public School. The conditions of approval can be found on the DPIE website: <https://www.planningportal.nsw.gov.au/major-projects/projects/kingscliff-public-school-redevelopment>

### Managing construction impacts

As part of the formal planning and approval process for Kingscliff Public School, the project is required to develop a Construction Noise and Vibration Management Sub-Plan to outline how it will manage any impacts on nearby properties and residents. These impacts include noise, vibration and vehicle movements. You can contribute to the development of these plans to effectively manage construction impacts.

Your feedback is sought on how we propose to manage construction activities listed in the table below. Please provide your feedback by **Friday 25 March** via email at [schoolinfrastructure@det.nsw.edu.au](mailto:schoolinfrastructure@det.nsw.edu.au) or phone 1300 482 651.

Activity	How we propose to minimise or manage the impact on nearby residents
<p><b>General</b></p>	<ul style="list-style-type: none"> <li>• We will provide advance notice of work and consult the local community, particularly when we anticipate high noise generating works.</li> <li>• Noise levels on site will be managed in accordance with noise control guidelines outlined in the EPA Environmental Noise Control Manual for construction and demolition works.</li> <li>• Construction works, including the delivery of materials to and from the site, are proposed to take place between:                             <ul style="list-style-type: none"> <li>• 7 am and 6 pm Monday to Friday</li> <li>• 8 am and 1 pm Saturday</li> <li>• No work is currently proposed for Sundays or public holidays.</li> </ul> </li> <li>• Workers and delivery trucks will not be able to congregate at or outside the site before 7 am.</li> <li>• We will provide advance notice of work to the local community, particularly when we anticipate high noise generating works.</li> <li>• We will provide advance notice if any work is approved by the relevant statutory authority to take place outside of the above hours.</li> </ul>
<p><b>Construction</b></p>	<p>Measures to manage high noise generating works such as rock hammering, rock breaking, sheet piling, pile driving and similar activities in line with noise reducing work practices.</p> <p><u>Proposed actions:</u></p> <ul style="list-style-type: none"> <li>• High noise generating works will be managed to reduce the impact to local residents by implementing shorter time periods or alternating with quieter work methods, where practical.</li> </ul>

	<ul style="list-style-type: none"> <li>• If rock breaking, rock hammering, sheet piling, pile driving and similar activities are required, effective equipment will be chosen, and respite periods for local residents will be put in place.</li> <li>• These activities only may be carried out between the following hours:             <ul style="list-style-type: none"> <li>• 9 am to 12 pm Monday to Friday</li> <li>• 2 pm to 5 pm Monday to Friday</li> <li>• 9 am to 12 pm Saturday.</li> </ul> </li> <li>• Regular reinforcement and briefings to workers on-site about the need to minimise noise and vibration will occur</li> </ul>
<b>Construction</b>	<p><b>Measures to manage vibration levels during construction.</b></p> <p><u>Proposed actions:</u></p> <ul style="list-style-type: none"> <li>• Vibration levels will be monitored during demolition and construction works will ensure they remain compliant with the approved noise criteria.</li> <li>• Acoustic barriers will be constructed to limited impacts to residential receivers</li> </ul>
<b>Construction</b>	<p><b>Measures to ensure road safety and network efficiency during construction.</b></p> <p><u>Proposed actions:</u></p> <ul style="list-style-type: none"> <li>• Construction vehicles will not arrive at the site or surrounding residential areas outside of approved construction hours.</li> <li>• Construction vehicles will be well maintained and will be required to observe speed limits.</li> <li>• Trucks will only use approved truck routes to and from the site via Sutherland St.</li> <li>• We will provide advance notice of any works that will impact access to residents or change local traffic conditions.</li> </ul>
<b>Construction</b>	<p><b>Mechanism for the community to discuss or provide feedback regarding construction impacts.</b></p> <p><u>Proposed actions:</u> The community information phone line and email address will be available throughout the project and for a minimum of 12 months following the completion of the project.</p> <p>Phone: 1300 482 651 Email: schoolinfrastructure@det.nsw.edu.au</p>
