

Kogarah Public School

Works notification | 18 March 2025

As part of the NSW Government's plan to rebuild essential services, a project is underway to upgrade Kogarah Public School.

Remediation investigations

During site investigations as part of the Kogarah Public School upgrade, small traces of asbestos containing material were found in the soil near the entrance to the COLA.

This area has now been covered and does not pose a risk to students, staff or the community, however, this find necessitates further investigations, which will take place outside of school hours from **8 am to 5 pm on Saturday 22 March and Sunday 23 March**.

These investigations are being undertaken by a team of specialist environmental engineers and are used to give us a better understanding of the soil conditions where the upgrade will take place.

Testing will confirm the extent and nature of the asbestos containing materials find and determine if further remediation works are needed. Please see map overleaf outlining where testing will take place.

This work will involve taking small soil samples around the school site and cutting into some concreted areas to access the soil underneath. The concrete cutting is anticipated to be noisy and will only be conducted on the Saturday.

If any further remediation is required, it will be done in accordance with work health and safety laws, regulations and guidelines and the site-specific Asbestos Management Plan. It will be completed by licensed and accredited asbestos contractors and monitored by an independent hygienist. The community will receive further notifications if remediation work is required.

For more information about asbestos, visit the NSW Health website: health.nsw.gov.au/environment/factsheets. The health, safety, and wellbeing of the school and local community is our highest priority. We will keep the community updated.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your cooperation during this important work.
