Ku-ring-gai High School

Summer holidays construction works

December 2018

Investing in our schools

The NSW Government is investing \$6 billion over the next four years to deliver more than 170 new and upgraded schools to support communities across NSW. In addition, a record \$847 million is being spent on school maintenance over four years. This is the largest investment in public education infrastructure in the history of NSW.

Ku-ring-gai High School

A project is underway at Ku-ring-gai High School. The project will involve construction of a new multi-purpose hall and refurbishment of some of the school's teaching spaces.

Progress summary

The design is completed for the multi-purpose hall and the development application has also been lodged with the local council.

Site signage has been installed for the commencement of early works. The upgrade is expected to be completed mid 2020.

Summer school holiday works

Works will continue during the school holidays, including the removal of trees.

We are here to make sure that work is completed safely and efficiently. During this time we will be working collaboratively with the school community and neighbours to ensure that disruptions to the community are minimised.

We thank you for your patience during these works and we are thrilled to deliver this project for the school community.

Please see overleaf for more information.

Frequently asked questions

What works will be completed over the holidays?

During January 2019 works will include:

- tree removal in accordance with DA consent
- removal of materials from the site in trucks.

No works will take place on public holidays and Sundays.

What steps will be taken to control noise and dust impacts?

Hoarding and shade cloth will be erected to reduce noise and dust impacts on the school and our neighbours. Dust from demolition and construction works will be hosed down with water as required.

How will traffic be managed?

Traffic management will be in place where required to manage vehicles entering and exiting the site.

How will you keep us informed during construction?

School infrastructure NSW will continue to share construction updates and project information as the project progresses. We will provide information through information booths, project updates, our website and school newsletters.

We encourage members from the community to participate in upcoming information booths to provide feedback and ideas. The time and location of future information booths will be advertised in the local newspaper and on the School Infrastructure NSW website.

Who can I contact if I have a concern about construction works over the holidays?

If you have any queries or concerns about this project you can contact School Infrastructure NSW during business hours on 1300 482 651.

SINSW will be closed from Monday 24 December to Friday 4 January inclusive.

In an emergency, call triple zero (000).
