

Kyeemagh Public School

Works notification

August 2020

Dear parents, carers and neighbours,

During construction works at Kyeemagh Public School asbestos containing material was found in the ground within the construction area that is fenced off. The material has been confirmed as bonded asbestos which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

Safety measures and monitoring have been put in place to ensure there is no risk to students, staff or the local community, including North Brighton Preschool.

This area will be remediated on Saturday 29 August 2020 between 8:00am and 1:00pm in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines. Testing will be completed to ensure the area has been fully remediated.

The health, safety, and well-being of the school and the local community is our highest priority and we will continue to keep the community updated.

Ground compacting work

To continue preparation for construction, in-ground works are scheduled to take place from Tuesday 1 September 2020 to Saturday 12 September 2020. This work includes filling and compacting new soil within the construction area.

There may be intermittent noise, vibration and dust as a part of this work. We will ensure that work is completed safely and efficiently, and disruptions are minimised where possible.

Construction hours will be between 7:00am and 6:00pm from Monday to Friday and 8:00am to 1:00pm on Saturdays (weather permitting). No construction work will take place on Sundays or public holidays.

More information about this project is available at: schoolinfrastructure.nsw.gov.au/projects/k/kyeemagh-public-school

Thank you for your patience and cooperation during these important works.
