Lane Cove Public School

Project update

September 2021

Lane Cove Public School project overview

Construction continues at Lane Cove Public School to replace the school hall and canteen facilities that were destroyed in a fire in 2020.

The project will deliver a replacement canteen and school hall, along with improved playground facilities and an external covered area. These works are being delivered in two stages:

- a new replacement school canteen with restoration works to the adjacent playground area
- a new school hall and attached Covered Outdoor Learning area (COLA).

The new canteen facilities will be located on the site where the previous school hall was located. The new school hall will be built on the site known as “The Bullring”.

Progress summary

Following a pause in construction due to COVID-19 building restrictions across NSW, construction of the canteen is progressing and nearing completion.

- lights have been fitted and balustrade installation is finished
- concrete footpaths have been poured and kitchen appliances have been delivered
- the ground has been prepared and is ready for the artificial turf to be installed in the upcoming weeks
- vinyl flooring has been installed and internal painting has been finished
- a large louvre window has been installed.

The canteen works are expected to be completed in October 2021, subject to weather conditions. The canteen will be fully equipped and ready for use soon after its completion.

The tender for construction of the new hall has closed and is expected to be awarded in the coming months. Once awarded, the contractor will work to progress the design and finalise the construction program.

The community will be notified once contract is awarded, a project timeline is established and further details on the construction impacts in the next project update.
