

Lindfield Learning Village Stage 2

Works notification

11 December 2020

The previously advised remediation works of non-bonded asbestos on the southern portion of the Lindfield Learning Village project site are now complete.

Further testing by an independent hygienist conducted in this southern portion, has identified bonded asbestos. This is asbestos that is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

The work to remove this bonded asbestos from the site will occur between 15 December 2020 and 16 January 2021. Work will take place between 7:00am and 6:00pm from Monday to Friday and 8:00am to 4:00pm on Saturdays, weather permitting. No work will be carried out on Sundays or public holidays.

No asbestos containing material will be removed during school pick up and drop off times.

All work in the areas will be carried out in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. The work will be monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The health, safety, and well-being of the school and the local community is our highest priority. Please be assured that the removal of this material will not pose a risk to the local community.

Thank you for your cooperation during this important work.
