Restoration and remediation at Lindfield Learning Village

Dear neighbour,

We are writing to inform you that restoration and remediation work at Lindfield Learning Village will commence this week. As part of this, the contractor will install the site office and work sheds, and deliver equipment, including a crane.

Delivery of the crane scheduled for Friday 11 September. The remediation and restoration works will begin from Monday 14 September. During remediation and restoration works, vehicles will be required to use Dunstan Grove to access the site, with traffic management in place to control vehicular movements. We will consult the adjoining community about the traffic management plan and provide a further update to the community ahead of any changes or impacts to local traffic.

Work will take place between 7:00am and 6:00pm from Monday to Friday and between 8:00am and 3:30pm on Saturdays, weather permitting. No work will be carried out on Sundays or public holidays.

Thank you for your cooperation during this important work.
