

Liverpool Boys and Girls High School upgrade Project update | December 2024

Image caption: Example of a modern classroom

Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including \$3.6 billion for new and upgraded schools in Western Sydney. This targeted investment will ensure growing communities get access to a world class public education.

The NSW Government will deliver a new co-educational high school in Liverpool by bringing together the existing Liverpool Boys and Liverpool Girls High Schools, following extensive consultation with the community.

Project overview

The new school will form part of the Liverpool Health and Education Sub Precinct, in collaboration with NSW Health, TAFE NSW and the Liverpool City Council.

The school will offer an expanded range of subjects for students, with purpose-built facilities to deliver access to specialised pathways into health and higher education.

In recognition of the preferences of some students and families, the co-educational school will also consider opportunities for single-sex-focused classes and activities.

Progress update

Early planning is now complete. This phase involved consideration and studies of demographic trends, education requirements, intake areas, technical studies, planning requirements, transport links, and possible shared area opportunities.

The next phase of the project includes, appointing design architects, engineers and educators, and an analysis of the site, along with the development of the initial concept designs. Doing so means that we consider the needs of the local area now and into the future and ensure the right school facilities are designed for the community.

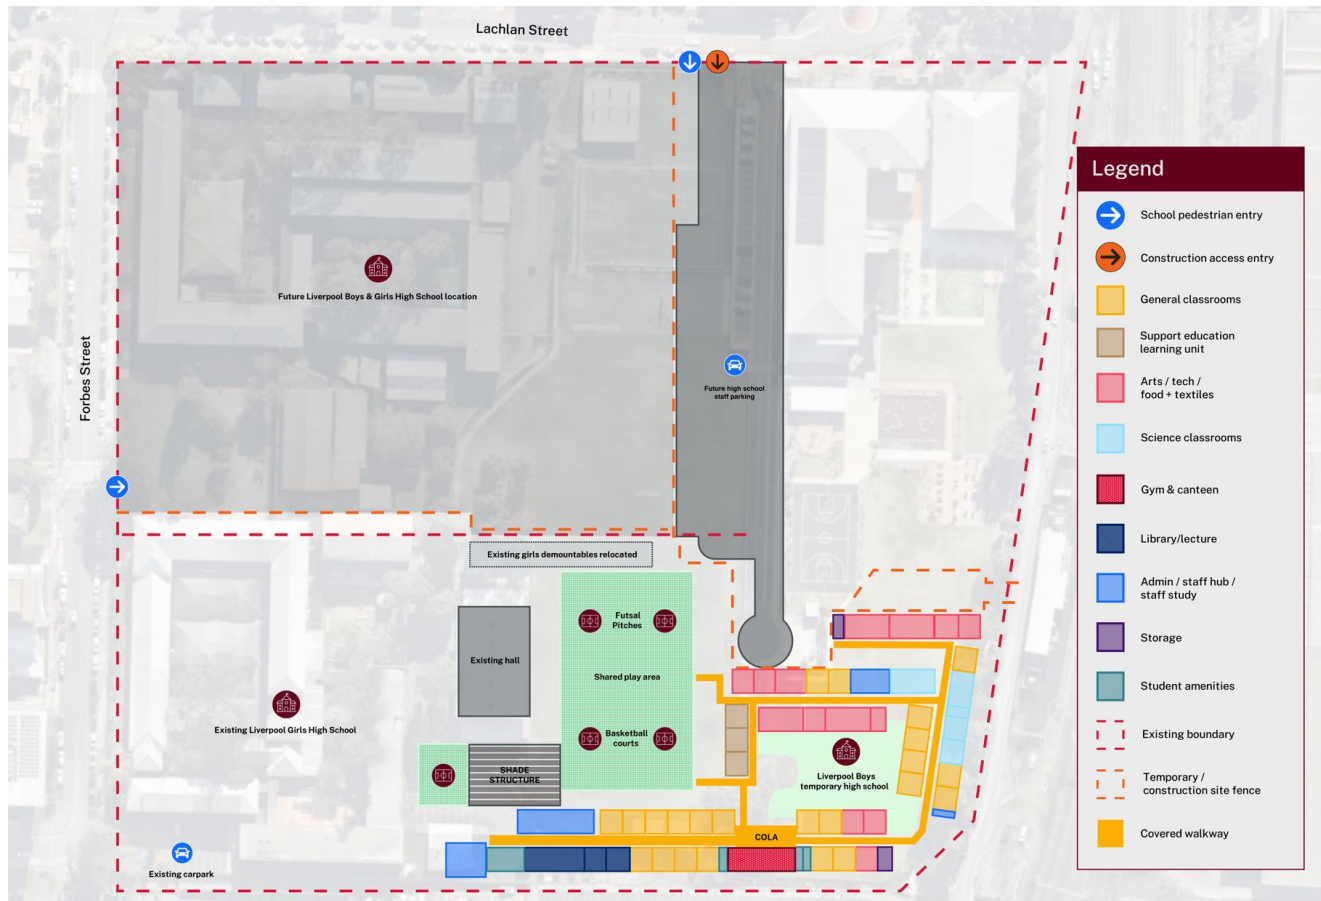

The new co-educational high school will be constructed on the existing Liverpool Boys High School site.

Location of the temporary Liverpool Boys High School

Several options to accommodate the Liverpool Boys High School students during construction on the existing school site were investigated in consultation with the school leadership. The confirmed location to construct the temporary Liverpool Boys High School is on Gulyangarri Public School's southern field.

Next steps

- We will continue with the development of the school's design and prepare the statutory planning documentation for both the temporary site for Liverpool Boys High School and the new co-educational high school.

Test excavations 22 November to 6 December 2024

Test excavations will be carried out to determine if there are any archaeological heritage items likely to be uncovered during the construction works. These investigations will take place in two small areas, as marked on the map below. The majority of the excavations will be carried out by hand, with a small number requiring the use of a mechanical saw.

Test excavations will be carried out on weekdays between 6:00 am and 4:00 pm and on Saturday 30 November 2024. All works will be within the site boundaries. Some noise is expected on Saturday 30 November 2024 due to saw cutting.

We want to hear from you

We are undertaking some initial consultation with the community about the project.

To comment on the project, please participate in our survey before **midnight Tuesday 17 December 2024** at edu.nsw.link/LiverpoolGirlsBoysHS-Survey or by scanning the QR Code.

How can I get involved?

To be added to our mailing list, simply scan the QR Code, or visit <http://edu.nsw.link/Liverpool-Boys-Girls-Updates> to receive project updates, works notifications and other communications about the Liverpool Boys and Girls High School upgrade.
